January 16, 2026

To the Honorable Mayor, the Governing Body, and the Citizens of the City of Santa Fe:

In accordance with New Mexico statutes, we are pleased to present the Annual Comprehensive Financial Report of the City of Santa Fe (City) for the fiscal year ended June 30, 2025 (FY25). The report was prepared by the City's Finance Department to provide information regarding the financial position of the City. The financial statements and supporting schedules have been prepared in conformity with U.S. generally accepted accounting principles (GAAP), as established by the Governmental Accounting Standards Board (GASB), and with the requirements of the State of New Mexico, Office of the State Auditor.

The responsibility for the accuracy, completeness, and fairness of the data presented, including disclosures, rests with management of the City. Management assumes full responsibility for the completeness and reliability of the information presented in this report based on a comprehensive internal control framework that is intended to provide reasonable assurance that assets are safeguarded against loss or unauthorized use, and that financial records can be relied upon to produce financial statements according to GAAP. Management believes this report is accurate in all material respects and is presented in a manner which fairly sets forth the financial position and results of operations of the City. Management is responsible for establishing and maintaining internal accounting controls designed to provide reasonable, but not absolute, assurance that these financial statements are complete and accurate in their presentation. "Reasonable assurance" is intended to recognize that the cost of maintaining the system of internal accounting controls should not exceed the benefits derived. The City's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. The City's Management team asserts that, to the best of our knowledge, this financial report is complete and reliable in all material respects.

New Mexico State Statute 12-6-3, NMSA 1978 mandates that the financial affairs of the City be thoroughly examined and audited each year by independent auditors approved by the state auditor. The City selected Carr, Riggs & Ingram to perform the June 30, 2025, audit. The audit was conducted in accordance with generally accepted government auditing standards (GAGAS) issued by the Comptroller General of the United States. The audit provides an independent review to help ensure a fair presentation of the City's financial position and results of operations. Carr, Riggs & Ingram issues a separate report on the City's internal control systems.

Management's Discussion and Analysis (MD&A) accompanies the independent auditor's report and provides a narrative overview and analysis to accompany the basic financial statements. This letter of transmittal is intended to complement the MD&A and should be read in conjunction with it.

FACTORS AFFECTING FINANCIAL CONDITION

The financial statement information is best understood when it is considered from the broader perspective of the specific environment in which the City of Santa Fe operates.

Profile of the City

The City's form of government has a direct bearing on its financial operations. The City of Santa Fe was founded in 1609 and chartered as a town in 1891 under territorial law. In December 1997 the City approved, by electoral vote, a Municipal Charter that became effective in March 1998. The City is empowered to levy a property tax on real property located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the governing body.

The City of Santa Fe has operated under the Mayor-Council-City Manager form of government since 1954. In 2014 the citizens voted to change the status of the Mayor from a part-time to a full-time Mayor, with a significant increase in duties and responsibilities. The City's Mayor, Alan Webber, was elected in March 2018 to serve a four-year term. Mayor Webber was re-elected in November 2021 and began his second four-year term as Mayor in January 2022. Prior to his service as the 43rd Mayor, and the City's first full-time executive, Mayor Webber built a career in business and journalism, most notably as the Editorial Director of the Harvard Business Review and Co-Founder and Co-Editor-in-Chief of Fast Company magazine.

The governing body consists of eight City Councilors and the Mayor, who are all elected on a nonpartisan basis. City Council members serve four-year staggered terms with four city councilors elected every two years within four districts. Policy-making and legislative authority are vested in the governing body. The governing body is responsible for passing ordinances and adopting the budget and creating or abolishing departments.

The Mayor appoints and may remove the City Manager, the City Attorney, the City Clerk and members of advisory commissions, subject to the approval of the governing body. The City Manager is the chief administrative officer of the City and is responsible for carrying out the policies and ordinances approved by the governing body. In addition to overseeing the day-to-day operations of the City, the City Manager also appoints the directors of the various departments, prepares the annual budget, and keeps the governing body informed of the financial condition and needs of the City.

Santa Fe is located in the north central part of the state. It is the oldest state capital in the United States. Its current population is approximately 90,000 residents. The City provides a full range of services including police and fire protection; public works; highways and streets; waste water operations; refuse collection and transport; water services; transit; parking facilities operations; convention center services; recreational activities; cultural events; community welfare; and the municipal airport. The City has no component units or blended component units that are legally separate entities. The City is the Fiscal Agent for two jointly governed organizations, the Buckman Direct Diversion Project (BDD) and Santa Fe Solid Waste Management Agency (SWMA). As Fiscal Agent the City holds pooled cash in a Custodial Fund on behalf of BDD and SWMA and has other fiduciary responsibilities to these entities.

Local Economy

As the state's capital, Santa Fe benefits from a stable, educated government workforce. Many city residents also work at Los Alamos National Laboratory in neighboring Los Alamos, one of the country's premier scientific research centers. Santa Fe's economy is based largely on tourism and, as the capital city, state government, which is the largest employer in the area. Known as "The City Different," Santa Fe is also one of the top art markets in the world and the third largest art market in the United States.

Santa Fe's spectacular Rocky Mountain setting and stunning wealth of cultural resources; including over 250 art galleries, over 20 museums, four-star hotels and resorts, a globally recognized opera company, dozens of major annual festivals, and many award-winning restaurants, shops and spas, draw visitors and second homeowners from all over the globe. Santa Fe attracts an average of 2 million overnight visitors annually and has been named as one of the top tourist destinations in the world by Travel + Leisure magazine. In 2025 Santa Fe was ranked the #1 city on the list of "15 Best Cities in the U.S." and the #19 city on the list of "25 Favorite Cities in the World" in the Travel + Leisure 2025 World's Best Awards.

The steady volume of visitors supported strong occupancy of Santa Fe's hotels and drove a robust short-term rental market in FY25. In 2025 Santa Fe earned many national and international accolades including:

- Santa Fe ranked #2 on the Conde Nast Traveler list of "The Best Small Cities in the U.S." in the 2025 Readers' Choice Awards.
- Ranked as the #1 small city on the Moviemaker Magazine 2025 list of the "Best Places to Live and Work as a Moviemaker"
- The Santa Fe Railyard Arts District was voted by USA Today readers into the #7 spot on the 2025 list of the "10 Best Art Districts in the US."

FY25 saw a time of relative economic stability in the aftermath of the coronavirus pandemic and the associated economic fallout. Federal policy changes enacted by the Trump Administration in Washington, D.C. created uncertainty regarding the future of federal grant revenues in the second half of FY25. The fiscal year 2026 (FY26) budget continues the Webber administration's record of responsible fiscal management and investment in increased compensation for City employees.

Financial Overview and Policies

The largest single source of revenue to the City is Gross Receipts Tax, which represents 36.2% of total budgeted operating City revenue for FY25. Since 2011, gross receipt tax revenue (GRT) has grown at a robust pace, although in FY25 year-over-year growth showed signs of leveling off. The City maintains sound reserves as a buffer against economic slowdowns, and funds over 40% of its total expenditures from utility rates, fees, and grants.

Through the diligent and collective efforts of the elected officials and city staff, measures continue to be taken to limit expenditures, prioritize services and projects and budget conservatively while delivering high-quality community services.

In FY25 the City invested in pay increases for all City employees as part of the implementation of recommendations from a Classification and Compensation study (Class and Comp). The FY25 operating budget includes \$10.6 million to fund pay increases recommended by the Class and Comp study, plus an additional \$4.1 million to pay for a 3% across the board pay increase for all City employees.

Early in FY25, budget increases totaling \$38.8 million in one-time appropriations for special projects were approved by the City's Governing Body. Funding for these one-time projects was drawn from accumulated balances in the General Fund, the ½% Gross Receipts Tax Capital Projects fund, and Utility enterprise funds. These balances accumulated primarily due to two factors: 1) in previous years actual revenues came in above budgeted estimates, and 2) prior year expenditures came in below budget.

Mayor Webber's administration has built up the City's "rainy day funds," or reserves, which have enabled the City to continue investing in core services and prioritize funding to build and support community initiatives. Reserves are intentionally built-up during years of revenue growth with the prospect of using the reserves to help during times of financial hardship or uncertainty. Overall, the adopted FY25 budget reflects an addition of \$8.4 million into the City's cash reserves.

The City has two industrial revenue bonds (IRBs) that include tax abatements. The Ridgetop Road office campus project IRB was approved by the City's Governing Body in 2007 to promote industry and develop trade and other economic activity to secure and maintain a balanced and stable economy in the City. The office campus is the headquarters of Thornburg Investment Management, a privately owned global investment firm. The El Castillo Retirement Residences project IRB was approved in 2019 for the purpose of acquiring, constructing, and equipping a new adult residential retirement facility. The La Secoya de El Castillo senior living community opened in 2022 and has 68 independent living units.

Cash Management

The City invests cash in demand deposits, certificates of deposit, securities issued by the United States Government and its Agencies, and money market funds. Investment terms may range from 0 to five-year maximum maturities under the City's Investment Policy. A review and update of the City's Investment Policy is planned for calendar year 2026.

Debt Management

The City issued 2025 Series General Obligation Improvement Bonds in August 2025, pledging property tax revenues received from Santa Fe County. The City raised \$25,000,000 dedicated to improving streets throughout the City over the next three years.

Procurement

The City has a centralized purchasing office that reviews all procurements for compliance. In January 2018, the City adopted the State of New Mexico Procurement Code. The Purchasing team is working to streamline the contracting process through technology and business process improvements. The City has a widely used Purchasing Card program and a City-wide WEX fuel card program. The Chief Procurement Officer is leading an effort to update and modernize the City's procurement ordinances and procurement manual.

Budget

The City prepares an annual operating budget. The annual budget serves as the foundation for Santa Fe's financial planning and control. All departments of the City are required to submit requests for appropriations to the City Manager each year. The City Manager uses these requests as the starting point for developing a proposed budget for the upcoming fiscal year. The City Manager presents this proposed budget to the Finance Committee, which is composed of five city councilors, through a series of public meetings. The city council reviews the finance committee's recommended budget and adopts a final budget by June 1 for the fiscal year commencing July 1. The appropriated budget is prepared by fund, function (e.g., public safety), and division (e.g., water). The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the function level for the general fund; the fund level for special revenue and capital improvement funds; and at the division level for the enterprise funds. The Municipal Charter allows the City Manager to approve transfers of appropriations within a department up to \$60,000. Transfers over \$60,000 or between funds, as well as any net budget increases or decreases, require city council approval. Budget-to-actual comparisons are provided in this report at the function level for the general fund, and at the fund level for the major special revenue funds. These comparisons are presented in this report as part of the basic financial statements for governmental funds.

Risk Management

The risk management programs include workers' compensation, comprehensive loss coverage, medical, safety, and other employee coverage programs. As part of this comprehensive plan, resources are accumulated in internal service funds from premiums assessed to all departments and funds to cover the costs of potential losses. In combination with third-party administrators, the City also utilizes controls including safety checks, employee prevention and reporting training, reviews to recognize liability exposure, health and wellness information and other cost controls.

Pension Plan

The City of Santa Fe participates in the State of New Mexico's Public Employees Retirement plan in which substantially all employees participate. The plan is a cost-sharing, multiple- employer, defined benefit plan that is authorized under the Public Employees Retirement Act (Chapter 10, Article 11 NMSA 1978). The contribution requirements of defined benefit plan members and the City of Santa Fe are established in state statute under Chapter 10, Article 11, NMSA 1978. The City makes the required payments as determined by PERA through City and member contributions.

Other Postemployment Benefit Plan

The City contributes to the New Mexico Retiree Health Care Fund, a cost sharing, multiple- employer, defined benefit, post-employment healthcare plan administered by the New Mexico Retiree Health Care Authority (RHCA). The RHCA provides health care insurance and prescription drug benefits to retired employees of participating New Mexico government agencies, their spouses, dependents, and surviving spouses and dependents. The Retiree Health Care Act (Section 10-7C-13 NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. The City makes the required payments as determined by RHCA through City and member contributions.

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City of Santa Fe, New Mexico (the "City"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Correction of Error

As described in Note 2 to the financial statements, the prior year financial statements have been corrected for errors in accordance with GASB Statement No. 100, *Accounting Changes and Error Corrections*. Our opinions are not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 20 through 30, the GASB required pension schedules on pages 134 through 137, the GASB required other post-employment benefit schedules on pages 138 through 141, and the notes to the required supplementary information on page 142 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying combining nonmajor fund financial statements, budgetary comparison schedules, and supporting schedules, as identified in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, and supporting schedules, as identified in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section, statistical section, and other disclosures but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 16, 2026, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Santa Fe, New Mexico Management's Discussion and Analysis

As management of the City of Santa Fe (the "City"), we offer readers of the City's financial statements this discussion and analysis of the financial activities of the City for the fiscal year ended June 30, 2025. This analysis is intended to serve as an introduction to the City's basic financial statements and to provide an analytical overview of the City's operations. We encourage readers to consider the information presented here in conjunction with the City's *Basic Financial Statements* starting on page 32, the *Notes to the Financial Statements* starting on page 58, and additional information provided.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$829,435,203 (net position). The City's net position that is restricted for capital projects and other purposes is \$129,967,734. The City's net investment in capital assets is \$677,979,290. The City has an overall unrestricted net position as of June 30, 2025 of \$21,488,179.
- Change in net position for the year ended June 30, 2025 was an increase of \$47,761,197 as a result of operations. The increase is primarily due to an increase in revenues of 4%. Overall, the City continues to have a strong financial position, operating reserves, and assets available to provide services to citizens.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$54,296,150 or 39% of total general fund expenditures.
- The City's total debt outstanding at June 30, 2025 is \$176,288,604.

THE BASIC FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and 3) notes to the financial statements. This set of financial statements provides both long-term and short-term views of the City's financial activities and financial position. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. These statements are reported using the economic resources measurement focus and the accrual basis of accounting and include the *statement of net position* and the *statement of activities*.

The *statement of net position* presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

THE BASIC FINANCIAL STATEMENTS (Continued)

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from those functions that are intended to recover all or a portion of these costs through user fees and charges (*business-type activities*). The governmental activities of the City include basic services such as general government, physical environment (public works), economic environment, public safety, human services (health and welfare), and culture and recreation. The governmental services are supported by general City revenues such as taxes, and by specific program revenues such as fees.

The business-type activities of the City include waste water management, water management, environmental services, Santa Fe Convention Center, College of Santa Fe, municipal recreation complex, parking, railyard properties, airport, transit system, and Genoveva Chavez Community Center. Unlike governmental services, these services are generally supported by charges paid by users based on the amount of service they use.

The government-wide financial statements are prepared on the accrual basis of accounting that means they include all economic resources of the City as a whole. The government-wide financial statements can be found on pages 32 through 35 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions.

THE BASIC FINANCIAL STATEMENTS (Continued)

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City has four governmental fund types: the general fund, the special revenue funds, capital projects funds, and the debt service funds. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the general fund and the $\frac{1}{2}\%$ gross receipts tax capital projects fund, which are considered to be major funds. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for all of its funds. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found on pages 36 through 45 of this report.

Proprietary Funds. Proprietary Funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flow. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources are included on the Statement of Net Position. The City has presented four major proprietary funds within the financial statements: the waste water management fund, the water management fund, the environmental services fund, and the Santa Fe convention center fund. Data from the other nonmajor proprietary funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor proprietary funds is provided in the form of combining statements elsewhere in this report. The basic proprietary fund financial statements can be found on pages 46 through 55 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 58 through 132 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor proprietary funds, and internal service funds are presented immediately following the Required Supplementary Information. The combining fund financial statements can be found on pages 146 through 237 of this report.

City of Santa Fe, New Mexico Management's Discussion and Analysis

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$829,435,664 at the close of the most recent fiscal year. The City had revenues that exceeded expenditures during the year in the amount of \$47,761,197 which increased net position in the current year as a result of operations.

The City net position reflects its investment in capital assets (e.g., land, buildings, other improvements, and furniture and equipment) less any related debt used to acquire those assets that is still outstanding. This net position category of \$677,979,290 reflects that the City has more net cost value than debt related to its capital assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Santa Fe, New Mexico Management's Discussion and Analysis

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$188,453,305, an increase of \$248,268 in comparison with the prior year. Approximately 28.8% percent of this total amount, \$54,186,140, constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is nonspendable, restricted, or assigned for other purposes to indicate that it is not available for new spending.

The general fund is the main governmental operating fund of the City. Its total fund balance for the fiscal year-ended June 30, 2025, was approximately \$54.4 million as compared to \$83.4 million at the prior year-end, amounting to a net \$29 million decrease. Two measures of the General Fund's liquidity are: (1) the percent of total fund balance as a percent of expenditures and (2) the spendable/unassigned fund balance as a percent of expenditures. The total fund balance was 81.7 percent of expenditures, and the spendable/ unassigned component was 23.5 percent of expenditures. The unassigned fund balance represents 39.2 percent of the total general fund expenditures or approximately 5 months of operating equity.

BUDGETARY HIGHLIGHTS

The overall City financial picture as of June 30, 2025 is consistent with what was expected when the FY25 budget was adopted in the spring of 2024. The largest single source of revenue to the City is Gross Receipts Tax (GRT), which represents 30% of the City's total operating revenue budget. As of the fourth quarter of FY25, GRT ended up approximately 8% over budget, and this figure reflects a 2.61% increase over the FY24 GRT number. This performance, while reflecting a positive development, reflects the trend staff have noted in previous GRT disbursements of FY25, wherein the annual GRT growth curve seen in the previous few years has appeared to be tapering off or flattening. The Finance Department will continue to monitor these trends as the FY26 GRT earnings numbers come in and will revise future earnings estimates accordingly. As for the remainder of the revenue picture, other major items such as Property Tax, Lodgers' Tax, Ambulance Fees, Housing Fees, and Utility Fees have also performed above budgeted estimates, though some categories such as Impact Fees, Franchise Fees, and Fines & Forfeitures ended up underperforming in FY25. Overall, however, the revenue picture is a positive one, with total overall revenues coming in at 1.1% under budget. On the expenditure side, we have seen the trend continue from past years, wherein major expense categories such as Contractual Services, Repairs & Maintenance, Supplies and Travel/Training ended the year well under budget. Overall expenses came in at 18.7% below budgeted levels at the end of FY25.

City of Santa Fe, New Mexico Management's Discussion and Analysis

BUDGETARY HIGHLIGHTS (Continued)

The revenue and expenditure situation for the General Fund is quite similar to the overall picture, with GRT coming in at approximately 8.7% over budget, or 2.6% over the previous fiscal year. Some other revenue categories such as Property Taxes, Ambulance Fees, Other Taxes, Licenses & Permits, and Recreation Fees performed significantly better than expected, while some others, including Franchise Fees, Planning/Land Use Fees, Other Fees & Services and Fines & Forfeitures came in below budgeted estimates. Overall General Fund revenues came in at 7.9% over budget for the fiscal year. Meanwhile, expenditure trends in the General Fund are largely similar to those seen in all funds arena, with major categories such as Contractual, Repairs & Maintenance, Supplies, and Travel/Training expected to come in well under budget, and some categories such as Salaries, Benefits, and Utilities projected to come in appreciably over budget. Overall, General Fund expenditures ended the fiscal year at 6.6% below budget for FY25.

City of Santa Fe, New Mexico Management's Discussion and Analysis

ECONOMIC FACTORS AND THE FISCAL YEAR 2026 ADOPTED BUDGET

Like other communities around the nation, the City of Santa Fe had to quickly adapt to rapidly changing situations during the COVID-19 pandemic. The City has continued to adapt to hybrid work formats and continued its efforts in working together with community counterparts. The City focused significant efforts in employee retention and recruitment, including continued steps to implement a new pay plan based on a compensation and classification study completed in FY24.

A driving force in developing our budget each year is the estimation of City revenues. Gross Receipts Tax (GRT) accounts for 65.1% of the total FY26 General Fund budgeted revenues. The remaining General Fund revenues are comprised primarily of property taxes, franchise fees, licenses and permits, and fees and service charges.

Regarding the future outlook, our guidance for FY26 budget development was to begin with the FY25 adopted budget, less one-time items. The adopted FY26 budget includes a 3% adjustment in salaries and salary-dependent benefits for all employees, which increased budget for reoccurring expenses by \$4.5 million dollars. Projected revenues remained in line with the City's financial policy goal to maintain reserves of at least double the amount required by the State of New Mexico Department of Finance and Administration. The State requires that one-twelfth of General Fund revised-budgeted expenditures be maintained as a cash reserve.

The overall City's adopted FY26 expenditure budget is \$480.6 million as compared to FY25 adopted expenditures of \$440.1 million. Overall City budgeted revenues for FY26 were \$482.7 million as compared to FY25 adopted revenues of \$448.9 million.

Looking ahead, early FY26 GRT revenue data suggests volatility, with some months significantly above FY25 levels, and some significantly below. Inflationary pressures and labor market constraints are concerns that continue to be monitored closely by management. With national unemployment at 4.4% (the highest level since October 2021) and local labor force participation hovering around 57% (one of the lowest in the country), Santa Fe could face moderation in job growth through FY26. This aligns with broader economic projections of a decelerating U.S. GDP, slowing from a strong Q2 2025 pace (3.8%) down towards 1-2% growth, due to factors like weaker job growth, consumer spending cooling, and federal policy impacts. Concurrently, consumer spending, a key driver of GRT, is projected to continue to cool, particularly among lower-income groups, as consumers struggle with economic uncertainty and higher costs of essentials like groceries and housing. These factors may temper GRT revenue growth and necessitate careful fiscal planning to sustain long-term financial stability for many New Mexico municipalities. For Santa Fe, this will be offset by continued population growth and expansion of the city as a regional center, which will continue to attract businesses that boost GRT revenue growth. Santa Fe's diversified revenue streams and strong fiscal management position the city to weather potential economic downturns.

City of Santa Fe, New Mexico Management's Discussion and Analysis

ECONOMIC FACTORS AND THE FISCAL YEAR 2026 ADOPTED BUDGET (Continued)

Strategic adjustments to expenditure forecasts and proactive monitoring of GRT trends will be essential in ensuring balanced budgets and stable service delivery amid evolving economic conditions. Property Tax revenue and Lodger's Tax revenues are expected to continue to steadily increase, driven by strong anticipated performance from the luxury tourism sector and increasing property values.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Santa Fe, New Mexico (the "City") is a municipal corporation governed by an elected mayor and an eight-member council. The accompanying financial statements present the government as an entity for which the City is considered to be financially accountable. The City has no component units or blended component units that are legally separate entities.

The City is a body politic and corporate under the name and form of government selected by its qualified electors. The City may:

1. Sue or be sued;
2. Enter into contracts and leases;
3. Acquire and hold property, both real and personal;
4. Have common seal, which may be altered at pleasure;
5. Exercise such other privileges that are incident to corporations of like character or degree that are not inconsistent with the laws of New Mexico;
6. Protect generally the property of its municipality and its inhabitants;
7. Preserve peace and order within the municipality; and
8. Establish rates for services provided by municipal utilities and revenue-producing projects, including amounts which the governing body determines to be reasonable in the operation of similar facilities.

The City's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the City are discussed below.

This summary of significant accounting policies of the City is presented to assist in the understanding of City's financial statements. The financial statements and notes are the representation of City's management who is responsible for their integrity and objectivity.

Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB Statement No. 14, as amended by GASB Statement No. 39, GASB Statement No. 61, GASB Statement No. 80, and GASB Statement No. 90. Blended component units, although legally separate entities, are in substance part of the government's operations.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens.

A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities. Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based on the application of these criteria, the City has no component units.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, enterprise funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the enterprise fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, net of estimated refunds, are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Property taxes, franchise taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, subject to the availability criterion. Gross receipts taxes are classified as derived tax revenues and are recognized as revenue when the underlying exchange takes place, and the revenues are measurable and available. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, subject to the availability criterion. All other revenue items are considered to be measurable and available only when cash is received by the government.

Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. The business-type activities column incorporates data from enterprise funds. Separate financial statements are provided for governmental funds, enterprise funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

The fund financial statements provide information about the City's funds, including its fiduciary funds. Separate statements for each fund category—governmental, enterprise, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and major enterprise funds, each displayed in a separate column on their respective financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds in their respective financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Under the requirements of GASB Statement No. 34, the City is required to present certain of its governmental and enterprise funds as major based upon certain criteria.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. This fund includes the state shared gross receipts tax income fund and the state shared gas tax income fund. The general fund also includes revenues and costs associated with community services, community development, and building codes.

The *1/2% Gross Receipts Tax Capital Projects Fund* is used to account for the City's portion of gross receipts taxes collected by the State of New Mexico per Ordinance No. 1981-45. The Ordinance dedicates $\frac{1}{2}$ of 1 percent for capital improvements to City facilities and street and road construction and re-construction to include any future operating expenditures (i.e., personnel or administrative costs) necessitated by the expansion of the services and facilities to the public.

The City reports the following enterprise funds as major funds:

The *Waste Water Management Fund* accounts for the operation of the City's waste water treatment and sewage system.

The *Water Management Fund* accounts for the activities of the City's water supply, transmission, and distribution systems.

The *Environmental Services Fund* accounts for the operation of the City's solid waste collection service.

The *Santa Fe Convention Center Fund* (formerly known as Sweeney Convention Center) accounts for the operation of the City's convention center.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Additionally, the City reports the following fund types:

Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted to expenditures for specified purposes other than capital projects.

Debt service funds are used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

Capital projects funds account for the acquisition and construction of the City's major capital facilities, other than those financed by enterprise funds.

Internal service funds account for the City's Risk Management Fund, Health/Dental Fund, Unemployment Claims Fund, Services to Other Departments, and Workers' Compensation Fund. These funds account for services provided to City departments on a cost reimbursement basis.

Fiduciary funds are used to report assets held in a trustee or agency capacity for others that cannot be used to support the government's own programs. *Custodial funds* are purely custodial and do not involve measurement of results of operations.

The City reports the following fiduciary fund:

The *Custodial Fund* is an external investment pool fund, which represents the amounts held in the City's pooled cash on behalf of the Buckman Direct Diversion Project (Buckman) and Santa Fe Solid Waste Management Agency (SWAMA). As the Fiscal Agent for both Buckman and SWAMA, the City has fiduciary responsibilities to these entities.

During the course of operations, the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

City funds are invested in accordance with New Mexico State Statute 6-10-10, and with the City of Santa Fe Investment Policy, which states:

City funds shall be invested in accordance with New Mexico Statute 6-10-10 and shall be equitably distributed among all banks and credit unions having their main or manned branch offices within the municipal boundaries and who are interested in doing business with the City, as directed by Statute 6-10-10, Paragraph C. Collateralization will be required on all deposits in excess of amounts insured by the Federal Deposit Insurance Corporation, or the National Credit Union Association. The collateralization level will be 102% of the market value of principal, per City of Santa Fe Investment Policy. The City will diversify use of investment instruments to avoid incurring unreasonable risks inherent in over-investing in specific instruments or individual financial institutions and limit maturities to five years or less to avoid interest rate risk. Certain investments may be held to accommodate debt reserve requirements may have maturities in excess of five years.

The investment policy provides for the following authorized investments:

- United States Treasury Securities (Bills, Notes, and Bonds).
- Insured and/or collateralized (with securities of the U.S. Government, its agencies or instrumentalities, municipal securities, or Letters of Credit from the Federal Home Loan Bank of Dallas) checking or savings accounts, or certificates of deposit of banks or credit unions, pursuant to State Board of Finance Collateral Policies.
- Other securities issued by the United States government or its agencies or instrumentalities that are either direct obligations of the United States, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Federal Home Loan Bank, or the Federal Farm Credit Bank, or are backed by the full faith and credit of the United States Government.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

- Money market funds that are registered with the SEC, carried an AAA rating and maintain total asset size, invest entirely in U.S. government and/or U.S. government agency securities (as defined above), and maintain total asset size of not less than \$100,000,000.
- Bonds or negotiable securities of the state of New Mexico or of any county, municipality, or school district which has a taxable valuation of real property of at least one million dollars and has not defaulted in payment of interest or sinking fund obligations or failed to pay any bonds at maturity at any time within the past five years and is rated AA equivalent or better on purchase date. Reasonable prudent measures will be taken to liquidate an investment that is downgraded to less than the required minimum rating.
- Investments in the New Mexico Local Government Investment Pool (NM LGIP).
- Repurchase agreements and forward purchase agreements with equivalent collateral of at least one hundred two percent of the market value of the securities plus accrued interest.

For amounts held in the NM LGIP, investments are valued at amortized cost based on quoted market prices as of the evaluation date. The NM LGIP is not SEC registered but does maintain an AAA rating (highest rating for pools) from Standard and Poor's. Section 6-10-10.1 NMSA 1978 empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies and are either direct obligations of the United States or are backed by the full faith and credit of the United States government or are agencies sponsored by the United States government. The NM LGIP are monitored by the same investment committee and the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the accounting entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the NM LGIP is voluntary.

Interest earnings on pooled investments are distributed annually to participating funds based on the average of beginning and ending balances. Investments for the City are stated at fair market value.

Receivables and Payables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded when levied. Property taxes are considered to be 100% collectible.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Property taxes are levied on November 1 based on the assessed value of property as listed on the previous January 1 and are due in two payments by November 10th and April 10th. Property taxes uncollected after November 10th and April 10th are considered delinquent and the City may assess penalties and interest. The taxes attach as an enforceable lien on property thirty (30) days thereafter, at which time they become delinquent. Property taxes are collected by Santa Fe County and remitted monthly to the City.

Unbilled receivables – An amount for unbilled revenue is recorded in the enterprise funds for services rendered but not yet billed as of the end of the fiscal year. The receivable is derived from the cycle billings generated subsequent to fiscal year end and prorated for usage before year-end.

Allowance for doubtful accounts – Accounts receivable have been reported net of the allowance for doubtful accounts. Accounts receivable in excess of 90 days is subject to being considered uncollectible.

Interfund Activities and Transactions

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between enterprise funds are netted as part of the reconciliation to the government-wide financial statements.

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except quasi-external transactions and reimbursements, are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Inventories and Prepaid Items

Inventories are valued at cost, which approximates market value, using the first-in, first-out (FIFO) method. Expenditures in governmental funds and expenses in enterprise funds are recorded as the inventory items are consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

The City of Santa Fe is a party to a contract with the Bureau of Reclamation, United States of America which provides certain rights to purchase water from the San Juan Chama renewable water resource system. Per contract dating from 1976 and made permanent in 2006, the City of Santa Fe has rights to purchase 5,230-acre feet per year from the San Juan Chama system for which it pays a predetermined rate. The City may utilize the water in the year it purchases it or in a later year if utilization does not match the annual amount purchased. Amounts acquired in excess of those amounts utilized are recorded as prepaid water assets in the statement of net position. The amount recorded as of June 30, 2025, was \$81,580 in the governmental funds and \$400,547 in the proprietary funds.

Leases Receivable

The City's leases receivable are measured at the present value of lease payments expected to be received during the lease term. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable.

Restricted Assets

Certain assets of the City are classified as restricted assets on the statement of net position because their use is limited by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors, grantors, contributors or laws or regulations of other governments. Special restricted asset accounts have been established to account for the sources and uses of these limited use assets as follows:

Bond and loan debt service accounts – Includes certain proceeds from issuance of revenue bonds, as well as certain resources set aside for the repayment of bonds or lease obligations.

Endowment funds – Includes privately donated funds for the Southside Library, expenditure of which is limited to interest by the donor and by City resolution.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Capital Assets

Capital assets, which include property, plant, equipment, leased assets, right-to-use assets, right-to-use subscription assets and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, as a Phase 2 government, the historical cost of infrastructure assets, (retroactive to June 30, 1980) are included as part of the governmental capital assets reported in the government wide statements.

Information Technology Equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at acquisition value at the date of donation, of which none were received for the year ended June 30, 2025. City land acquired prior to 1987 was primary by land grant or donation and is estimated to be 4,217 acres. Because original values are unknown, the parcels are valued at one dollar each.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest incurred during the construction phase of capital assets of City is expensed as it is incurred.

Land, construction in progress, right of way assets, water rights, and art are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years	Assets	Years
Buildings and Structures	50	Vehicles	4-8
Improvements	10	Equipment and Machinery	4-10
Furniture and Fixtures	10	Sewerlines and Utility Systems	25
Data Processing Equipment	3	Software	10
Streets and Bridges	25	Traffic Signals	10

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Leases and right-to-use assets

Lease contracts that provide the City with control of a non-financial asset, such as land, buildings or equipment, for a period of time in excess of twelve months are reported as a right-to-use asset with a related lease liability. The lease liability is recorded at the present value of future lease payments, including fixed payments, variable payments based on an index or fixed rate and reasonably certain residual guarantees. The right-to-use asset is recorded for the same amount as the related lease liability plus any prepayments and initial direct costs to place the asset in service. Leased assets are amortized over the shorter of the useful life of the asset or the lease term. The lease liability is reduced for lease payments made, less the interest portion of the lease payment.

Deferred Outflows/Inflows of Resources

The City has two (2) items that qualify for reporting as deferred outflows of resources, the deferred amount related to pension and the deferred outflows related to net other postemployment benefit (OPEB) liability, both reported in the government-wide statements of net position and the enterprise funds statement of net position. The deferred outflows related to pensions and OPEB are an aggregate of items related to pensions as calculated in accordance with GASB Codification (GASBC) Section P20: *Pension Activities – Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. These amounts are deferred and recognized as outflows of resources in future periods and will reduce the net pension liability and net other post-employment benefit liability, respectively, in future periods.

In addition to liabilities, the statements of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has four (4) items that qualify for reporting as deferred inflows of resources in the statement of net position. The deferred inflows related to pensions and OPEB are an aggregate of items related to pensions and OPEB as calculated in accordance with GASBC Section P20: *Pension Activities – Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. The deferred inflows related to pensions and OPEB will be recognized as a reduction to pension expense and OPEB expense in future reporting years. The third deferred inflow is related to leases are associated with amounts owed to the City, as lessor, by entities leasing the City's capital assets. Deferred inflows - unamortized gain on refund of bonds is related to a previous refunding of long-term liabilities that resulted in a gain on refunding which is recognized over a period of time.

Deferred inflows reported in the governmental funds balance sheet represents unavailable revenue, which arises only under a modified accrual basis of accounting. The governmental funds report unavailable revenues from three sources: leases, property taxes and liquor license and land sales, categorized as "other" deferred inflows. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Accrued Payroll

Accrued payroll is comprised of the payroll expenditures based on amounts earned by the employees through June 30, 2025, along with applicable FICA, Medicare, PERA, retiree health care, and other benefits expenses.

Compensated Absences

The City recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee flex spending account) during or upon separation from employment. Based on the criteria listed, four types of leave qualify for liability recognition for compensated absences – vacation, sick leave, comp time, and floating holidays. The City uses a Last-In, First-Out (LIFO) method to determine the usage and valuation of sick leave, comp time, and floating holidays. Under this method, the newest hours accrued are assumed to be used first. The liability for compensated absences is reported as incurred in the government-wide financial statements and the enterprise fund financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

City employees are entitled to certain compensated absences based on their employment classification and length of employment. It is the City's policy to permit employees to accumulate earned but unused vacation, compensatory hours, and sick pay benefits. There is a liability for these benefits since the City has a policy to pay any amount when the employee has earned the benefits. All vacation and compensatory hours are accrued when incurred in the government-wide and enterprise fund financial statements. The City's employees can utilize these balances for early retirement or buy-out options or donate the hours to a sick leave bank to be used by other employees.

Subscription-Based Information Technology Arrangements

Subscription agreements that provide the City with access to a software or similar intangible asset for a period of time in excess of twelve months are reported as a right-to-use subscription asset with a related subscription liability. The liability is recorded at the present value of future subscription payments, including fixed payments, variable payments based on an index or fixed rate and reasonably certain residual guarantees. The right-to-use subscription asset is recorded for the same amount as the related lease liability plus any prepayments and initial direct costs to place the asset in service. Subscription assets are amortized over the shorter of the useful life of the asset or the lease term. The subscription liability is reduced for payments made, less the interest portion of the payment.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Unearned Revenues

Unearned revenues are comprised of advanced funded grants for which eligible expenditures have not yet been incurred and payments made in advance by customers for various services (i.e. prepaid rent, golf pro shop gift cards, etc.) provided by the City as of June 30, 2025.

Long-term Obligations

In the government-wide financial statements, and enterprise fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or enterprise fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums and discounts, as well as issuance costs are recognized in the period the bonds are issued.

The face amount of debt issued is reported as other financing sources, net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (“PERA”) and additions to/deductions from PERA’s fiduciary net position have been determined on the same basis as they are reported by PERA, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (“OPEB”)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (“NMRHCA”) and additions to and deductions from NMRHCA’s fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balance Classification Policies and Procedures

The City has implemented GASB No. 54 and has defined the various categories reported in fund balance. Fund balances of the governmental funds are reported in the order of spending: first committed fund balance, then assigned fund balance, and, finally, unassigned fund balance, and are classified as follows:

Nonspendable fund balances are amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The City classified \$81,149 of fund balance as nonspendable related to inventory in the government fund balance sheet at June 30, 2025.

Restricted fund balances are amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. Enabling legislation includes a legally enforceable requirement that resources be used only for specific purposes stipulated in the legislation. Legal enforceability means the government can be impelled by an external party to use resources for the purpose specified by the legislation.

Committed fund balances are amounts that can be used only for specific purposes determined by a formal action of the City Council. The City Council is the highest level of decision-making authority for the City that can, by adoption of a resolution, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Assigned fund balances are amounts that are constrained by the City's intent to use them for a specific purpose but are neither restricted nor committed. The City has not established a policy regarding the assignment of funds, so this category of fund balance represents the residual amounts not otherwise reported as nonspendable, restricted, or committed in governmental funds outside of the general fund. The City had no assigned fund a balance as of June 30, 2025.

Unassigned fund balances are all other spendable amounts. The general fund should be the only fund that reports a positive unassigned fund balance amount.

Minimum Fund Balance Policy – The City's is required by the New Mexico Department of Finance and Administration to maintain a minimum amount of fund balance for operations is to minimize any sudden and unplanned discontinuity to programs and operations and for unforeseen contingencies. At a minimum, the budget shall ensure that the City holds a cash reserve of 1/12th of General Fund expenditures. As of June 30, 2025, the City's required minimum cash reserve was \$12,442,397.

Note 16 shows more detail regarding these classifications of fund balances in the governmental funds.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

Net Position

In business-type activities, enterprise funds, and internal service funds, equity is classified as net position and displayed in three components:

Net investment in capital assets is intended to reflect the portion of net position which is associated with capital assets. It consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted net position consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net position restricted for “special revenue, debt service, and capital projects” are described on pages 62-63 and 146-149. The City also maintains restricted net position for post closure obligations and has received privately donated endowment funds for the Southside Library, expenditure of which is limited to interest by the donor and by City resolution.

Unrestricted net position consists of all other net position that do not meet the definition of “restricted” or “net investment in capital assets.”

Revenues and Expenditures/Expenses

Program revenues included in the statement of activities are derived directly from the program itself or from parties outside the City’s taxpayer or citizenry, as a whole; program revenues reduce the cost of the function to be financed from the City’s general revenues.

Program revenues are categorized as (a) charges for services, which include revenues collected for fees and use of City facilities, etc., (b) program-specific operating grants, which includes revenues received from state and federal sources such as small cities assistance to be used as specified within each program grant agreement, and (c) program-specific capital grants and contributions, which include revenues from state and federal sources to be used for capital projects. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Equity (Continued)

The City reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. The City does not currently employ indirect cost allocation systems. Depreciation expense is specifically identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the statement of activities.

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenue of the City's major enterprise fund is charges for services for the City's utilities. Operating expenses for enterprise funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Significant estimates in the City's financial statements include the fair value of investments, value of liabilities and right-of-use assets related to leases and subscription-based IT arrangements, allowance for uncollectible accounts, expected useful lives of capital assets, accrued compensated absences, the estimate for landfill closure and post closure costs, and actuarial estimates included in the calculation of the net pension liability and net OPEB liability.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, January 16, 2026. See note 20 for relevant disclosures. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

Recently Issued and Implemented Accounting Pronouncements

During the fiscal year ended June 30, 2025, the City adopted GASB Statement No. 101, *Compensated Absences* and GASB Statement No. 102, *Certain Risk Disclosures*. The implementation of GASB Statement No. 101 did not have a significant impact on the City. The implementation of GASB Statement No. 102 did not have a significant impact on the City.

The Governmental Accounting Standards Board has issued statements that will become effective in future years. These statements are as follows:

GASB Statement No. 103, *Financial Reporting Model Improvements*. The requirements of this Statement aim to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. Earlier application is encouraged.

GASB Statement No. 104, *Disclosure of Certain Capital Assets*. The requirements of this Statement aim to improve reporting on capital assets by separately disclosing specific types of capital assets in financial statement notes. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025. Earlier application is encouraged.

The City is evaluating the requirements of the above statements and the impact on reporting.

Note 2: ERROR CORRECTION

The City's fiscal year 2025 financial statements reflect the correction of errors in previously issued financial statements. GASB Statement No. 100, *Accounting Changes and Error Corrections*, requires disclosure of their nature and effect on amounts reported in the financial statements.

- GASB Statement No. 101, *Compensated Absences*, resulted in adjustments to beginning net position in the governmental activities, business-type activities, and enterprise funds as summarized below.
- The Community Development Grants Fund and Debt Service Fund were presented as major funds in separate columns in the City's 2024 governmental fund financial statements. However, for fiscal year 2025, the funds no longer met the quantitative threshold that requires major fund presentation. The City consequently reclassified the funds as nonmajor funds and presented them in the aggregate nonmajor funds column in the governmental fund financial statements.
- The College of Santa Fe Fund was presented as major a fund in separate column in the City's 2024 enterprise fund financial statements. However, for fiscal year 2025, the fund no longer met the quantitative threshold that requires major fund presentation. The City consequently reclassified the fund as a nonmajor funds and presented it in the aggregate nonmajor funds column in the enterprise fund financial statements.
- The City discovered during the year that June 30, 2024 unearned revenue balances in the nonmajor governmental funds, the Santa Fe Convention Center Fund, and the nonmajor enterprise funds should have been recognized as revenue in the year ended June 30, 2024. This resulted in the "error correction – unearned revenue" summarized below.
- The City discovered during the year that June 30, 2024 gross receipts tax (GRT) balances were recorded to in the nonmajor governmental funds (Gross Receipts Tax Fund) instead of the 1/2 Gross Receipts Tax Fund in the amount of \$18,022,229, show as "error correction – GRT allocation" below.
- The City discovered during the year that the Opioid Fund was included in the General Fund when a separate fund was required per the guidance from the New Mexico Department of Finance, Local Government Division. This is presented as "error correction – opioid" in the summary below.
- The City discovered during the year that the Affordable Housing Trust Fund was included in the Community Development Grants Fund when it should have been reported separately, resulting in a restatement to both funds of \$67,251 and \$(67,251), respectively. Both funds are included in the aggregate nonmajor governmental funds As such, they do not appear in the chart below.
- The City discovered during the year that June 30, 2024 transfers from Buckman Direct Diversion Project (BDD) were not recorded in the amount of \$275,519 in the aggregate nonmajor funds as summarized below in item "error correction – transfer from BDD".
- The City discovered various inaccuracies in the beginning balances of capital assets and the related accumulated depreciation, which impacted the enterprise funds and governmental activities. These corrections are presented as "error correction – capital assets" in the summary below.

Note 3: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

Annual budgets for governmental funds are adopted based on generally accepted accounting principles (GAAP basis). Annual budgets for enterprise funds are adopted on a basis other than generally accepted accounting principles. Depreciation is not budgeted for enterprise funds. All annual appropriations lapse at the fiscal year-end.

The City is required to submit a proposed budget, which has been approved by the governing body, for each fiscal year on or before June 1st with the Local Government Division of the State of New Mexico Department of Finance and Administration. Before July 1st, the Local Government Division approves and certifies an operating budget for use pending approval of the final budget. Prior to the first Monday in September, the Local Government Division must certify a final budget for the municipality.

Because the non-GAAP basis of accounting is not the generally accepted accounting method for propriety funds, differences result from budgeting for various items.

The Local Government Division must also approve the following changes throughout the fiscal year:

- budget increases;
- transfers of budget between funds;
- transfers of cash, both permanent and temporary, between funds; and
- any combination of the above.

New Mexico state law prohibits municipalities from making expenditures in excess of the approved expenditures. State law mandates that municipalities develop and operate within the confines of a balanced budget. The total amount which the governing body appropriates in any particular fiscal year cannot exceed the probable amount of money available at the beginning of the year (cash balance or reserves) plus anticipated revenues during the fiscal year. As required by the state, the City prepares a budget for all fund types.

The appropriated budget is prepared by fund, function, and division. All amendments to the appropriated budget require City Council approval. The City Manager may approve budget amendment increases or decreases of appropriations up to \$60,000. The Finance Director may approve budget amendment increases or decreases up to \$5,000. The amendments below the \$60,000 threshold are ratified by City Council at the end of each quarter. Budget amendments in excess of \$60,000 require Council approval. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is at the function level for the general fund; the fund level for special revenue and capital improvement funds; and at the division level for the enterprise funds. The City Council approved supplemental budgetary appropriations during the fiscal year, primarily for new grant awards and additional project amounts, which did not materially affect cash reserves of related funds.

Budgetary Information (Continued)

Encumbrance accounting is employed in all funds. Encumbrances (purchase orders, contracts and other commitments for the expenditure of resources) outstanding at year-end are reappropriated by request to the new fiscal year and do not constitute expenditures or liabilities because the commitments will be part of the following years budget and honored during that following year.

The budgetary information presented in these financial statements has been properly amended by City Council in accordance with the above procedures. These amendments resulted in the following changes:

	Excess (deficiency) of revenues over expenditures	
	Original Budget	Final Budget
Budgeted governmental funds		
General Fund	\$ 1,658,997	\$ (11,555,366)

Note 4: DEPOSITS AND INVESTMENTS

State statutes and the City's investment policy authorize the investment of City funds in a wide variety of instruments including certificates of deposit and other similar obligations, the state investment pool, money market accounts, and United States Government obligations. All invested funds of the City properly followed State investment requirements as of June 30, 2025.

Deposits of funds may be made in interest bearing or non-interest-bearing checking accounts in one or more banks or savings and loan associations within the geographical boundaries of the City. Deposits may be made to the extent that they are insured by an agency of the United States or by collateralized as required by statute. The financial institution must provide pledged collateral for 50% of the deposit amount in excess of the deposit insurance for accounts held by the City.

The rate of interest in non-demand interest-bearing accounts shall be set by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States treasury bills of the same maturity on the day of deposit.

Excess funds may be temporarily invested in securities which are issued by the State or by the United States government, or by their departments or agencies, and which are either direct obligations of the State or the United States or are backed by the full faith and credit of those governments.

The City's accounts at an insured depository institution, including all noninterest-bearing transaction accounts, will be insured by the FDIC up to the standard maximum deposit insurance amount of \$250,000 for demand deposit accounts and \$250,000 for time and savings accounts.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. At June 30, 2025, \$10,499,430 of the City's bank balance of \$10,993,772 was subject to custodial credit risk. Of this amount, \$10,499,430 was uninsured and collateralized by collateral held by the pledging bank's trust department, not in the City's name and \$0 of the City's deposits were uninsured and uncollateralized at June 30, 2025.

Interest Rate Risk – Investments. Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The investment policy limits the City’s exposure to interest rate risk by limiting the maximum maturity of securities to five years and certificates of deposit to three years. The City uses duration as its measure of interest rate risk. The fair value of the securities exposed to interest rate risk is \$389,047,339. These securities do not have call options.

Maturity rates consist of the following as of June 30, 2025:

Investment Type	Amount	Not subject to		Less than 1 Year	1-5 Years
		Interest Rate Risk			
New MexiGROW LGIP	\$ 87,544,591	\$ 87,544,591	\$	-	\$ -
Money Market Funds	389,047,339	389,047,339		-	-
Total investments	\$ 476,591,930	\$ 476,591,930	\$	-	\$ -

Credit Risk – Investments. Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The City’s investment policy requires that fixed income securities and equities have a weighted average of no less than investment grade, as rated by *Moody’s* and *Standard & Poor’s*.

Concentration of Credit Risk – Investments. For an investment, concentration of credit risk is when any one issuer is 5% or more of the investment portfolio of the City. The City’s investment policy specifies that the City shall diversity its investments to avoid a concentration of any one issuer, with the exception of U. S. Treasury securities. Money Market Funds, savings accounts, NM LGIP and cash accounts have no duration. NM LGIP and Money Market Funds represent 100% of the total portfolio.

Fair Value Measurement - The fair value framework uses a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability,
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See above for discussion of valuation methodologies used to measure fair value of investments.

The City's investment of \$87,544,591 with the NM LGIP is valued at amortized cost and is not subject to fair market valuation.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the City believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 9: RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries various insurance. The City administers its insurance coverage through the Risk Management Office. The Risk Management Fund, Santa Fe Health/Dental Fund, and Workers' Compensation Fund are reported as Internal Service funds. Premiums are paid into the funds by other funds and are available to pay claims, claim reserves, and administrative costs of the programs. The City purchases commercial insurance for claims in excess of coverage provided by the funds and for other risks of loss. The City has had no significant reduction in insurance coverage from the prior year and, as of June 30, 2025, such interfund premiums did not exceed reimbursable expenditures.

The Risk Management Fund accounts for general liability, auto liability, public official errors and omissions, and law enforcement liability through independent conventional insurance carriers. The City is self-insured for the first \$100,000 per public official errors and omissions and the first \$50,000 for general and auto liability claims and law enforcement liability claims.

The Santa Fe Health/Dental Fund accounts for the self-insured program for employee health and major medical benefits. Claims are handled by a professional third-party claims administrator. The City maintains specific stop loss coverage for individual claims in excess of \$225,000 and aggregate coverage of cumulative claims in excess of 125% of expected claims.

The Workers' Compensation Fund accounts for the self-insured program and for workers' compensation coverage. Claims are handled by a professional, third-party claims administrator. The City maintains specific stop loss coverage for individual claims in excess of \$500,000 with a \$1,000,000 statutory limit.

Note 9: RISK MANAGEMENT (Continued)

Liabilities of the funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and the damage award. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether these expenses are allocated to specific claims. Estimated recoveries, such as recoveries from salvage or subrogation, are another component of the claims liability estimated. An excess coverage insurance policy covers individual claims at various levels. Settlements have not exceeded coverage for any of the past three fiscal years. The Union Sick Leave Bank accounts for donations of leave from union employees to support other union employees in need of leave.

Changes in the balances of claim liabilities during the past two years are as follows:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year- End

Note 11: PENSION PLAN - PUBLIC EMPLOYEES RETIREMENT ASSOCIATION

General Information about the Pension Plan

Plan description. The Public Employees Retirement Fund (PERA Fund) is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the PERA Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), and the provisions of Sections 29-4-1 through 29-4-11, NMSA 1978 governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the PERA Fund, unless specifically excluded.

Benefits Provided. Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service.

The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II. The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least five years of service credit and the sum of the member's age and service credit equals at least 85 or at age 65 with 5 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 5 or more years of service credit. Generally, under Tier II pension factors were reduced by 0.5%, employee Contribution increased 1.5 percent and effective July 1, 2014 employer contributions were raised 0.05 percent. The computation of final average salary increased as the average of salary for 60 consecutive months.

General Information about the Pension Plan (Continued)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2023. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2024. These assumptions were adopted by the Board use in the June 30, 2023 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

ALL FUNDS - Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	46.00%	3.90%
Core Fixed Income	13.00%	2.20%
Credit	17.00%	2.30%
Absolute Return	6.00%	2.60%
Real Assets	18.00%	5.90%
Total	100.00%	

Discount rate. A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2023. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

General Information about the OPEB

Plan description. Employees of the City are provided with OPEB through the Retiree Health Care Fund (“the Fund”)—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (“NMRHCA”). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (“the Act”) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA’s financial information is included with the financial presentation of the State of New Mexico.

Benefits provided. Contributions – Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee’s salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer’s participation in the Fund. Contributions to the Fund from the City were \$1,902,878 for the year ended June 30, 2025.

At June 30, 2025, the City reported a liability of \$24,029,627 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2023 and rolled forward to June 30, 2024. The City’s proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2024. At June 30, 2024, the City’s proportion was 1.3464 percent.

For the year ended June 30, 2025, the City recognized OPEB benefit of (\$7,175,928). At June 30, 2025 the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Deferred outflows of resources totaling \$1,902,878 represent the City's contributions to the Fund made subsequent to the measurement date and will be recognized as a reduction of net OPEB liability in the year ending June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Actuarial valuation date	June 30, 2023
Actuarial cost method	Entry age normal, level percent of pay, calculated on individual employee basis
Asset valuation method	Market value of assets
Actuarial assumptions:	
Inflation	2.30% for ERB members; 2.50% for PERA members.

Investment rate of return	7.00%, net of OPEB plan investment expense and margin for adverse deviation including inflation

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Rate of Return. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-Term
U.S. core fixed income	1.60%
U.S. equity - large cap	6.90%
U.S. equity - small/mid cap	6.90%
Non U.S. - developed equities	7.20%
Non U.S. - emerging markets	8.70%
Private equity	9.90%
Credit and structured finance	3.70%
Absolute return	3.20%
Real estate	3.60%

Discount Rate. The discount rate used to measure the Fund's total OPEB liability is 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. The 7.00% discount rate, which includes the assumed inflation rate of 2.50% for PERA members, was used to calculate the net OPEB liability.

Note 14: JOINTLY GOVERNED ORGANIZATIONS

Under authorization of the New Mexico State Statute 11-1-1, the City of Santa Fe joined the County of Santa Fe to jointly undertake their powers to dispose of solid waste as mandated by state and federal regulations and provide a more efficient and cost-effective method of solid waste disposal to the City and County citizens. The Solid Waste Management Agency was established February 1995, as a public entity separate from the City or the County. The Board of Directors for the joint venture consists of three members who are appointed by the City's mayor with the approval of the City Council and three members who are appointed by the Board of County Commissioners. The Agency is charged to comply with all laws, rules, and regulations of operations under the permit issued from the New Mexico Environment Department.

The Solid Waste Management Agency has its own financial statements as a separate entity, audited on an annual basis. The City serves as the fiscal agent for the agency. Completed financial statements for the Agency may be obtained at the Santa Fe Solid Waste Management Agency, 149 Wildlife Way, Santa Fe, NM 87506.

Under a joint powers agreement for the Buckman Direct Diversion Project (BDD) dated January 11, 2005, the City of Santa Fe joined the County of Santa Fe to design and construct the BDD project in order to divert surface water from the Rio Grande to the independent water systems of the City and County. The City and County each own 50 percent of the BDD project and have established a board to oversee the planning, procurement, financing, permitting, design, construction, operations, and management of the BDD project. The BDD board is comprised of two members of the governing body of the City of Santa Fe, two members of the board of Santa Fe County commissioners and one citizen member at large appointed by a majority vote of the four other members. The project is essentially complete as of December 2010. First water delivery was approved to enter the Santa Fe region water systems as of January 2011 by the New Mexico Environment Department. The City of Santa Fe and Santa Fe County are responsible on an ongoing basis for financial and operating costs of the system. The City is a fiscal agent for the project through a project management and fiscal services agreement in effect through December 2015, and month to month thereafter until a new Fiscal Agent agreement is finalized or terminated by either party. Fiscal services include maintaining separate books and accounts of all transactions that relate to the project including third party transactions. The BDD project has its own financial statements and is audited on an annual basis. Completed financial statements for the BDD project may be obtained from: City of Santa Fe, P.O. Box 909, Santa Fe, NM 87504-0909.

The City of Santa Fe appoints open board positions for the Santa Fe Housing Authority, a related organization. The Housing Authority is not financially accountable to the City. The City leases certain land to the Housing Authority for \$1 per year, providing significant in kind support to the Housing Authority for its operations. No other transactions between the organizations occurred.

Note 18: CONCENTRATIONS

The City depends on financial resources flowing from, or associated with, both the Federal Government and the State of New Mexico. Because of this dependency, the City is subject to changes in the specific flows of intergovernmental revenues based on modifications to Federal and State laws and Federal and State appropriations.

Note 19: CONDUIT DEBT OBLIGATIONS

The City of Santa Fe has issued Industrial Revenue Bonds to provide financial assistance to private-sector and nonprofit entities for the acquisition and construction of industrial, commercial, educational, and health care facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received from the entities involved. Upon repayment of the bonds, ownership of the acquired facilities transfers to the entity served by the bond issuance. Neither the City nor the state, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

In the normal course of operations, the City receives grant funds from various federal and state agencies. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement which may arise as a result of these audits is not believed to be material.

Note 20: SUBSEQUENT EVENTS

On August 14, 2024, the City's Governing Body approved a resolution to submit to the November 5, 2024 General Election ballot a question of the issuance of its general obligation bonds in the maximum principal amount of \$25 million to be repaid from property taxes for the purpose of improving roads and streets within the City. The bond question was approved by voters and was issued in August of 2025.

On August 14, 2024, the City's Governing Body adopted an ordinance authorizing the City to enter into a loan agreement with the New Mexico Environment Department (NMED) for the purpose of obtaining project loan funds in the amount of up to \$151 million, plus accrued interest, to assist in financing improvements to the City's Water, Waste Water and Environmental Services public utility systems. The loan agreements were executed in July of 2025. The project loan funds consist of three loans. The first is a \$114 million line of credit for four projects: UV Disinfection Replacement, Waste Water Collection Division Equip and Admin, Sanitary Sewer Line Repair, and WasteW ater Treatment Plan Repair and Rehabilitation. The second consists of \$17 million line of credit for the Nichols Dam Outlet Works Rehabilitation. The third is a \$20 million line of credit for the maintenance of the Administrative Building.

Note 20: SUBSEQUENT EVENTS (Continued)

The loan principal and interest will be repaid with pledged revenues from the Water Management, Waste Water Management and Environmental Services enterprise funds. The lines of credit carry an interest rate of 0.01% and are available for three years. Repayment terms will be further defined upon issuance of the final loan agreements.

The City entered into two new NMFA State Water Trust Board Project loan/grant agreements subsequent to June 30, 2025. THIS PAGE INTENTIONALLY LEFT BLANK.

City of Santa Fe, New Mexico Nonmajor Enterprise Fund Descriptions

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the City Council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the City Council has decided that periodic determination of net income is appropriate for accountability purposes.

Railyard Properties – to account for the development of 50 acres of prime real estate near the center of the City previously owned by the railroad and a private developer.

College of Santa Fe – to account for the lease operations, debt service, and construction activities associated with the City's purchase of the college from a nonprofit corporation and subsequent lease to Laureate Education Inc. in September of 2009.

Municipal Recreation Complex – to account for the operation of the City's golf course and adjoining recreation facility.

Parking Enterprise Fund – to account for the operation of the City's parking lots and the operation of the on-street parking meters.

Transit Bus System – to account for the operation of the City's public bus system and trails.

REPORTS ON INTERNAL CONTROL AND COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Joseph M. Maestas, P.E., CFE, New Mexico State Auditor
The Mayor and Members of City Council
City of Santa Fe
Santa Fe, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City of Santa Fe (the "City"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated January 16, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2025-001 and 2025-002 that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that are required to be reported per Section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of findings and responses as items 2025-003, 2025-004 and 2025-005.

City's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. The City's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SECTION II – FINANCIAL STATEMENT FINDINGS

2025-001 (2024-001) – Controls over Construction in Process (Material Weakness)

Condition: The City's process for tracking construction in process (CIP) was not designed properly to ensure completed projects are capitalized and added to the capital asset subledger in a timely manner.

Management Progress on Repeat Findings: The City showed improvement and was able to evaluate the status and presentation of the majority of its old CIP projects during the fiscal year. The City continues to make efforts to ensure the projects are capitalized and tracked in a timely manner as discussed below.

Criteria: The COSO Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Systems and control activities should be in place to evaluate ongoing construction projects to ensure they are capitalized and depreciated when put in service.

Cause: The City experienced significant turnover in its finance department during the 2020 and 2021 fiscal years. As such, many of the individuals responsible for ensuring the proper accounting treatment of CIP and completed projects were lost. Further, there was a time delay in the establishment of a new finance team and no established process inherited to ensure proper accounting treatment.

Effect: The City had a backlog of CIP project costs, some dating back to 2020, that had to be extensively re-evaluated to ensure proper capitalization and depreciation of completed projects.

Auditor recommendation: The City should have mechanisms in place that ensure the finance department is up to speed with the status of ongoing projects and when projects are completed/are ready to be moved to a depreciable category. Additionally, the status of CIP projects should be reviewed by the finance department on a periodic basis throughout the fiscal year to identify and adjust for completed projects in a timely manner.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. The City did not have the necessary staffing or tools in place from FY2020 to FY2024 to ensure that construction in process (CIP) was tracked, reviewed and reconciled timely. The City's process for tracking CIP was limited in functionality and did not ensure completed projects were capitalized timely, which resulted in a backlog of completed projects that remained in CIP after the date that they were placed in service.

In FY2024 the City designated an Accounting Manager in the Finance Department as the primary position responsible for oversight of Capital Assets and CIP. This position was vacant for portions of FY2024 and FY2025 due to a retirement and several recruitments. Ultimately, late in FY2025 the City was fortunate to hire an experienced capital asset accountant who had previously done capital asset accounting for a large municipality.

2025-001 (2024-001) – Controls over Construction in Process (Material Weakness) (Continued)

Views of Responsible Officials and Planned Corrective Action: (Continued)

Currently Excel worksheets are the primary tool used for tracking CIP expenditures and capital assets with data that is derived from the Munis accounting system. The magnitude and complexity of the City's capital asset management needs require specialized software. The City owned the Munis Capital Assets module, but it was not implemented because it was not configured to match the business need. In the last quarter of FY2025 the Controller began a project to implement the Capital Assets module in the Munis ERP system. The Accounting Manager is now the functional lead for the project. This module will help track and monitor capital expenditures by project, from planning to completion, and provide detailed functionality to help manage capital processes such as depreciation, additions and deletions, and retirements.

Munis workflows will notify Finance Department Capital Assets staff when a project is complete, or other significant milestones are reached. This will establish direct communication between the field and Finance about the status of CIP. The implementation of the Capital Assets module in Munis is in progress and is expected to be completed by 6/30/26

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

2025-002 (2024-002) – General Ledger Corrections (Material Weakness)

Condition: The following inaccuracies in the Munis general ledger were not identified and corrected by the City in a timely manner, leading to the need for error corrections to beginning fund balance and net position:

- Adjustments to unearned revenue for error corrections of \$311,645 in Fund 545, \$802,218 in fund 240 and \$300,000 in fund 520, respectively.
- Adjustments in the amount of \$3,787,776 for the proper breakout of the Affordable Housing Trust Fund into its own fund.
- Adjustments in the amount of \$8,595,195 for the proper breakout of the Opioid Fund into its own fund.
- Gross Receipt Tax error correction from FY19-FY20 in the amount of \$18,022,229.
- Adjustment to Fund 230 to correct beginning fund balance in the amount of \$275,519 due to a transfer in prior year not previously captured.
- Adjustment between Fund 230 and 231 to correct beginning fund balance in the amount of \$66,420 due to an accrual in the prior year recorded in the incorrect fund.

Management Progress on Repeat Findings: The City's yearend close process has been improved significantly over the previous couple of fiscal years. As a result of that process, the City has continued to locate required corrections as summarized above.

Criteria: The COSO Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. An integral part of designing proper control activities is implementing and maintaining a process to review the general ledger software for completeness and accuracy on a periodic basis.

Cause: The City was behind on audits and its financial closing process for an extended period of time prior to fiscal year 2025. This led to the inability to capture many adjustments in a timely manner in the City's general ledger system, which becomes closed to adjustment after a certain period of time.

Effect: The City adjusted for the items described above in fiscal year 2025 through fund balance and net position.

Auditor recommendation: The City's accounting and financial management team should continue to stay caught up on monthly and annual closing procedures. During these processes, the City should remain cognizant of items requiring adjustment and reversal to prevent instances such as those noted above in the future.

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

2025-002 (2024-002) – General Ledger Corrections (Material Weakness) (Continued)

Views of Responsible Officials and Planned Corrective Action: The City agrees with the finding. For a period of time, the City did not complete a timely close of its financial records, which was resolved starting in fiscal year 2024. As a result of the prior delays in the closing process, a comprehensive general ledger reconciliation of all funds was not consistently performed. This reconciliation process began during fiscal year 2025, supported by the improved financial condition of the City and the recent hiring and retention of qualified staff in key financial positions.

Many of the discrepancies noted were primarily the result of accounting entries recorded in prior fiscal years. Through research and analysis performed by the Finance Department, a clearer understanding of these historical entries was obtained, allowing management to appropriately rectify the issues. The items identified in the finding were identified and corrected by management during fiscal year 2025 and communicated to the auditors during the audit.

Additionally, during fiscal year 2025, the Finance Department identified an existing ordinance requiring the establishment of a separate fund for the Affordable Housing Trust Fund (AHTF). In coordination with the Office of Affordable Housing, the City initiated a project to reconcile historical activity and segregate AHTF transactions from other activity previously recorded in the Community Development Fund.

To prevent similar issues in the future, the City will continue to enhance and formalize its internal controls and monitoring procedures over general ledger activity. These measures include increased and documented reviews of general ledger accounts, full fund reconciliations performed annually, and ongoing research and follow-up on items such as unchanged or unusual account balances. Additionally, staff will continue to receive guidance and reminders regarding proper posting procedures, account classifications, and compliance with established accounting policies to promote consistency and accuracy in financial reporting.

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS

2025-003 – Budgetary Compliance (Other Noncompliance)

Condition: The following funds were over-expended during the fiscal year 2025:

Fund	Fund Description	Budgeted Expenditures	Actual Expenditures	(Over) Budget
210	Capital Equipment Reserve	\$ 52,706	\$ 52,751	\$ (45)
211	Franchise Fee	-	2	(2)
214	Public Campaign	-	66	(66)
216	Gross Receipts Tax	585,442	623,992	(38,550)
222	Fire Environmental Services	-	203	(203)
224	Opioid	-	605	(605)
242	Affordable Housing Trust	-	4,314,208	(4,314,208)
250	Historic Perservation Grant	-	34	(34)
254	Public Facilities Purchase	-	13	(13)
257	Land Development	-	250	(250)
310	CIP Reallocation	-	50	(50)
340	City Drainage Project	-	162	(162)
930	UNSICKLV	-	84	(84)
950	Suspense	-	4	(4)

Criteria: City funds are to be budgeted by the local governing body and submitted to the State of New Mexico Department of Finance and Administration - Local Government Division for approval. Once adopted, any claims or warrants in excess of approved budget are in violation of New Mexico Statute - 6- 6, 1978. In addition, NMAC 2.2.2.10 (R) (1) requires an audit finding if actual expenditures exceed budget expenditures at the legal level of budgetary control.

Effect: Non-compliance with statutes regarding budgetary control.

Cause: Necessary budget adjustments were not completed prior to fiscal year end.

Auditor's Recommendation: The City should review total actual expenditures at the end of the fiscal year to the approved budget and submit budget adjustments to the New Mexico Department of Finance and Administration when appropriate.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. Using the current systems, it is challenging to monitor all funds, especially at fiscal year-end, when unanticipated expenditures or transfers arise for which the need for budget availability was not previously identified.

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

2025-003 – Budgetary Compliance (Other Noncompliance) (Continued)

Views of Responsible Officials and Planned Corrective Action: (Continued)

The largest discrepancy, for fund 242 Affordable Housing Trust Fund (AHTF), relates to a correction of an error in the presentation of the AHTF in previous years. Since at least the inception of the Munis ERP system in FY2020 the financial activity of the Affordable Housing Trust Fund (AHTF) was combined with other activity in the Community Development Grants Fund (Munis Fund 240) and presented as one fund in the City's financial statements. Other activities unrelated to the AHTF are also accounted for in the Community Development Fund.

In FY2025 the Finance Department and the Office of Affordable Housing began a project to reconcile and separate the activity of the AHTF from other transactions recorded in the Community Development Grant Fund. The Affordable Housing Trust Fund was established in 2007 by City ordinance 26-3. The AHTF is often referred to as a fund, including in the ordinance, and many stakeholders had the expectation that it was being accounted for as a separate fund. The Finance Director reviewed the ordinance during FY2025 and determined that the activity of the AHTF should be presented in the financial statements as a separate fund.

In the City's financial statements for the year ended June 30, 2025 the AHTF is presented as a separate fund, and in fiscal year 2026 (FY26) the process to establish a separate fund for the AHTF in Munis is underway. The FY2025 budget for the activity of the AHTF was established in Fund 240 Community Development Grant Fund. The AHTF portion of the budget was not moved over to the new separate AHTF fund 242 Affordable Housing Trust until after the FY2025 budget was finalized because the new fund had not yet been created in Munis.

Because of the NMDFA year-end deadline (July 31) requirement, and the timing of the July Council and City committee meeting schedules, budgetary compliance issues may result due to insufficient time to process budget amendments.

The second discrepancy, for fund 216 Gross Receipts Tax Fund, relates to GRT admin fees that were higher than anticipated. GRT admin fees came in higher than what was budgeted because actual GRT received was higher than what was budgeted. Due to the two-month lag between when GRT is earned and when the State distributes GRT to the City, the information that actual admin fees were more than what was budgeted in FY25 was received too late to process a budget amendment to increase budget authority. The GRT distribution for June was not received until late August, after the DFA deadline for budget adjustments (July 31).

Relating to fund 216 and the other funds identified in this finding, sometimes adjustments, such as depreciation expense and allocation of bank fees, are made during the audit prep process after the end of the fiscal year and after the DFA deadline for budget adjustments (July 31). For FY2025 the small budget overages, \$250 or less, are due to a year-end entry that allocated bank fees across all City funds. The implementation of a more robust year-end close process including a hard close of the GL, as well as the monthly closing processes, ensure that information is recorded in Munis timelier, which allows for more accurate monitoring of the budget.

The City is also implementing new budget software, Questica/EUNA, which will help modernize the budgeting process and will facilitate timelier budget-to-actuals monitoring including quarterly and monthly budget projection reports. The implementation of the Questica/EUNA modules for operating budget and personnel budget is in progress and is expected to be complete in February 2026. After Questica/EUNA is implemented the Budget Division plans to begin implementing additional monitoring of the budget during the fiscal year, including reviewing budget to actual reports on a quarterly basis to identify discrepancies that may require budget adjustments

2025-004 (2021-020) – Cash Appropriations in Excess of Available Cash Balances (Other Noncompliance)
(repeated/modified)

Condition: The City budgeted deficits in excess of available cash balances in the following funds:

	Budgeted Deficit - Cash Appropriations	Beginning Year Cash & AR Available	Cash Appropriation in Excess of Available
Governmental Funds			
Major Funds			
The 1/2% Gross Receipts Tax Fund	(12,818,031)	(7,226,995)	(12,818,031)
Non Major Funds			
Bond Acquisition Fund	(1,454,507)	1,318,465	(136,042)
Capital Improvement Projects (CIP)			
Community Development	(2,086,901)	734,964	(1,351,937)
Enterprise Funds			
Non Major Funds			
Municipal Recreation Complex	(4,309,615)	2,722,156	(1,587,459)

Management Progress on Repeat Findings: The City did not make progress on prior year corrective action plan.

Criteria: Section 2.2.2.10. (Q) and (R), NMAC, state that budgeted expenditures cannot exceed budgeted revenues in an amount more than prior year cash balance and any applicable federal receivables.

Effect: If budget deficits are not monitored closely, it could result in a funding shortfall.

Cause: The City did not identify that the budgeted deficits in the funds listed above were not covered by the prior balance of cash and federal receivables.

Auditor's Recommendation: The City should review and monitor future budgets for budgeted deficits that are not covered by ending cash and federal receivables as of the start of the fiscal year. Additionally, the City should review for adequate coverage of budget deficits as part of the budgeting process throughout the fiscal year.

Views of Responsible Officials and Planned Corrective: The City agrees with this finding. Regarding the ½% Gross Receipts Tax Fund (Fund 365), there were several issues impacting the budget and beginning of the year cash balance. The Fund 365 budget for FY2025 was built using a debt service schedule spreadsheet. It was discovered in the last month of FY2025 that one of the outstanding debt series was not included in the formulas on the spreadsheet, and as a result one of the debt payments was missing. Due to the error in the spreadsheet the established FY2025 budget for debt service was short by about three million dollars.

***2025-004 (2021-020) – Cash Appropriations in Excess of Available Cash Balances (Other Noncompliance)
(repeated/modified) (Continued)***

Views of Responsible Officials and Planned Corrective: (Continued)

Additionally, and also impacting Fund 365, an error in the GRT revenue allocations from FY2019 and FY2020 was identified by management during the early stages of the FY2025 audit. The prior year allocation of GRT revenues between Fund 365 and Fund 216 was found to be inverted, with the amount that should have gone to Fund 365 going to Fund 216. This resulted in the need to restate the beginning cash and fund balances for both funds. The restatement increases cash and fund balance in Fund 365 by over eighteen million dollars. When the restatement is taken into consideration the beginning of the year cash balance in Fund 365 is sufficient to cover the cash appropriations made from the fund in FY2025.

The City agrees that conducting periodic reviews for adequate coverage of budget deficits throughout the fiscal year would be helpful. The City is implementing new budget software, Questica/EUNA, which will help modernize the budgeting process and will facilitate timelier budget-to-actuals monitoring including quarterly and monthly budget projection reports. The reporting capabilities of the Questica/EUNA system will help the budget team conduct periodic reviews for adequate coverage of budget deficits. This will allow deficits and issues to be identified earlier, allowing time for entries to be made to resolve the deficits before the end of the fiscal year.

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

2025-005 – Stale Dated Checks (Other Matter)

Condition: The City had outstanding checks on two of their bank reconciliations at June 30, 2025 which included checks over a year old. The common bank account had 1,331 outstanding checks totaling \$244,178, and the general liability bank account had 12 outstanding checks totaling \$65,751. The City has not cancelled these items.

Criteria: New Mexico Statutes, Section 6-10-57 A, NMSA, 1978 compilation, requires local public bodies to cancel or void any checks that are unpaid for one year after it is written. 6-10-57 C NMSA, 1978 states that the face amount of warrants cancelled shall revert and be credited to the fund against which it was drawn.

Effect: The City's cash balance may be misstated by the amount of the stale checks, and is not in compliance with Section 6-10-57 A, NMSA, 1978.

Cause: The City is aware of the requirement and has been working on reviewing and reissuing stale-dated payments.

Auditor's Recommendation: We recommend that the stale dated checks be voided as soon as possible and that a procedure to track and void stale dated checks be implemented into bank reconciliation procedures.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. The Controller Division started working on the list of stale-dated checks in the 4th quarter of FY2025. The payee type was used to identify whether a particular payee is a vendor or a non-vendor so that we can review and confirm the address and reissue the payment. The outstanding checks are primarily comprised of vendors and refunds. The refunds primarily consist of utility account balances and deposits for use of City facilities. For those that are vendors, we are voiding and reissuing payments through the Munis A/P module. For non-vendors we are having to contact each payee to confirm their address. This is a time-consuming manual process. The A/P Supervisor is actively working on the list of stale-dated checks, and a staff member from the Public Utilities Department is reviewing the stale-dated utility refunds. Any payments that cannot be reissued by the City will be sent to the State of New Mexico Office of Unclaimed Property. The project is expected to be complete by the end of FY2026.

REPORTS ON INTERNAL CONTROL AND COMPLIANCE SECTION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Joseph M. Maestas, P.E., CFE, New Mexico State Auditor
The Mayor and Members of City Council
Office of Management and Budget
City of Santa Fe
Santa Fe, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City of Santa Fe (the "City"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated January 16, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2025-001 and 2025-002 that we consider to be material weaknesses.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that are required to be reported per Section 12-6-5 NMSA 1978 that we have described in the accompanying schedule of findings and questioned costs as items 2025-003, 2025-004 and 2025-005.

City's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's responses to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE; AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Joseph M. Maestas, P.E., CFE, New Mexico State Auditor
The Mayor and Members of City Council
Office of Management and Budget
City of Santa Fe
Santa Fe, New Mexico

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the City of Santa Fe, New Mexico's (the "City") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2025. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2025-006 to be a material weakness.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the internal control over compliance finding identified in our compliance audit described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison for the general fund of the City, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated January 16, 2026, that contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of the City's management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In our opinion, based on our audit, the procedures performed as described previously, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

SECTION II – FINANCIAL STATEMENT FINDINGS

2025-001 (2024-001) – Controls over Construction in Process (Material Weakness)

Condition: The City's process for tracking construction in process (CIP) was not designed properly to ensure completed projects are capitalized and added to the capital asset subledger in a timely manner.

Criteria: The COSO Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. Systems and control activities should be in place to evaluate ongoing construction projects to ensure they are capitalized and depreciated when put in service.

Cause: The City experienced significant turnover in its finance department during the 2020 and 2021 fiscal years. As such, many of the individuals responsible for ensuring the proper accounting treatment of CIP and completed projects were lost. Further, there was a time delay in the establishment of a new finance team and no established process inherited to ensure proper accounting treatment.

Effect: The City had a backlog of CIP project costs, some dating back to 2020, that had to be extensively re-evaluated to ensure proper capitalization and depreciation of completed projects.

Auditor recommendation: The City should have mechanisms in place that ensure the finance department is up to speed with the status of ongoing projects and when projects are completed/are ready to be moved to a depreciable category. Additionally, the status of CIP projects should be reviewed by the finance department on a periodic basis throughout the fiscal year to identify and adjust for completed projects in a timely manner.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. The City did not have the necessary staffing or tools in place from FY2020 to FY2024 to ensure that construction in process (CIP) was tracked, reviewed and reconciled timely. The City's process for tracking CIP was limited in functionality and did not ensure completed projects were capitalized timely, which resulted in a backlog of completed projects that remained in CIP after the date that they were placed in service.

In FY2024 the City designated an Accounting Manager in the Finance Department as the primary position responsible for oversight of Capital Assets and CIP. This position was vacant for portions of FY2024 and FY2025 due to a retirement and several recruitments. Ultimately, late in FY2025 the City was fortunate to hire an experienced capital asset accountant who had previously done capital asset accounting for a large municipality.

Currently Excel worksheets are the primary tool used for tracking CIP expenditures and capital assets with data that is derived from the Munis accounting system. The magnitude and complexity of the City's capital asset management needs require specialized software. The City owned the Munis Capital Assets module, but it was not implemented because it was not configured to match the business need.

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

2025-001 (2024-001) – Controls over Construction in Process (Material Weakness) (Continued)

Views of Responsible Officials and Planned Corrective Action: (Continued)

In the last quarter of FY2025 the Controller began a project to implement the Capital Assets module in the Munis ERP system. The Accounting Manager is now the functional lead for the project. This module will help track and monitor capital expenditures by project, from planning to completion, and provide detailed functionality to help manage capital processes such as depreciation, additions and deletions, and retirements. Munis workflows will notify Finance Department Capital Assets staff when a project is complete, or other significant milestones are reached. This will establish direct communication between the field and Finance about the status of CIP. The implementation of the Capital Assets module in Munis is in progress and is expected to be completed by 6/30/26.

Responsible Official: Controller and Capital Asset Accounting Manager

Timeline and Estimated Completion Date: June 30, 2026

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

2025-002 (2024-002) – General Ledger Corrections (Material Weakness)

Condition: The following inaccuracies in the Munis general ledger were not identified and corrected by the City in a timely manner, leading to the need for error corrections to beginning fund balance and net position:

- Adjustments to unearned revenue for error corrections of \$311,645 in Fund 545, \$802,218 in fund 240 and \$300,000 in fund 520, respectively.
- Adjustments in the amount of \$3,787,776 for the proper breakout of the Affordable Housing Trust Fund into its own fund.
- Adjustments in the amount of \$8,595,195 for the proper breakout of the Opioid Fund into its own fund.
- Gross Receipt Tax error correction from FY19-FY20 in the amount of \$18,022,229.
- Adjustment to Fund 230 to correct beginning fund balance in the amount of \$275,519 due to a transfer in prior year not previously captured.
- Adjustment between Fund 230 and 231 to correct beginning fund balance in the amount of \$66,420 due to an accrual in the prior year recorded in the incorrect fund.

Criteria: The COSO Internal Control Integrated Framework provides guidelines for designing and implementing a system of internal controls that incorporates five necessary components of internal controls. These five components consist of the control environment, risk assessment, control activities, information and communication, and monitoring. An integral part of designing proper control activities is implementing and maintaining a process to review the general ledger software for completeness and accuracy on a periodic basis.

Cause: The City was behind on audits and its financial closing process for an extended period of time prior to fiscal year 2025. This led to the inability to capture many adjustments in a timely manner in the City's general ledger system, which becomes closed to adjustment after a certain period of time.

Effect: The City adjusted for the items described above in fiscal year 2025 through fund balance and net position.

Auditor recommendation: The City's accounting and financial management team should continue to stay caught up on monthly and annual closing procedures. During these processes, the City should remain cognizant of items requiring adjustment and reversal to prevent instances such as those noted above in the future.

Views of Responsible Officials and Planned Corrective Action: The City agrees with the finding. For a period of time, the City did not complete a timely close of its financial records, which was resolved starting in fiscal year 2024. As a result of the prior delays in the closing process, a comprehensive general ledger reconciliation of all funds was not consistently performed. This reconciliation process began during fiscal year 2025, supported by the improved financial condition of the City and the recent hiring and retention of qualified staff in key financial positions.

SECTION II – FINANCIAL STATEMENT FINDINGS (Continued)

2025-002 (2024-002) – General Ledger Corrections (Material Weakness) (Continued)

Views of Responsible Officials and Planned Corrective Action (Continued):

Many of the discrepancies noted were primarily the result of accounting entries recorded in prior fiscal years. Through research and analysis performed by the Finance Department, a clearer understanding of these historical entries was obtained, allowing management to appropriately rectify the issues. The items identified in the finding were identified and corrected by management during fiscal year 2025 and communicated to the auditors during the audit.

Additionally, during fiscal year 2025, the Finance Department identified an existing ordinance requiring the establishment of a separate fund for the Affordable Housing Trust Fund (AHTF). In coordination with the Office of Affordable Housing, the City initiated a project to reconcile historical activity and segregate AHTF transactions from other activity previously recorded in the Community Development Fund.

To prevent similar issues in the future, the City will continue to enhance and formalize its internal controls and monitoring procedures over general ledger activity. These measures include increased and documented reviews of general ledger accounts, full fund reconciliations performed annually, and ongoing research and follow-up on items such as unchanged or unusual account balances. Additionally, staff will continue to receive guidance and reminders regarding proper posting procedures, account classifications, and compliance with established accounting policies to promote consistency and accuracy in financial reporting.

SECTION III – FEDERAL AWARD FINDINGS

2025-006 (2023-006) – Equipment and Real Property Management (Material Weakness over Internal Controls over Compliance) (Repeated/Modified)

Federal Program Information

Federal Award Title and ALN: Airport Improvement Program, 20.106
Federal Awarding Agency: Department of Transportation, Federal Aviation Administration
Federal Award ID Number: SAF-SWG-3-35-0037-054-2020, SAF-SWG-3-35-0055-054-2020, SAF-SWG-3-35-0037-057-2020, SAF-SWG-3-35-0037-060-2020, SAF-SWG-3-35-0037-062-2020, SAF-SWG-3-35-0037-063-2020, SAF-SWG-3-35-0037-065-2020
Federal Award Year: 2021, 2022, 2024

Condition: The City's approved annual inventory was not complete. There was no information to identify the funding source of the equipment and/or property.

Management's Progress on Repeat Findings: The City did not make progress on this finding during FY25.

Criteria: Per 2 CFR 200.303(a), the non-federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States or the "Internal Control Integrated Framework", issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Per 2 CFR 200.313(d)(1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of funding for the property (including the FAIN), who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the project costs for the Federal award under which the property was acquired, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

Cause: Turnover in related positions resulted in delays in making revisions to the listing to incorporate information on Federal participation in the purchases.

SECTION III – FEDERAL AWARD FINDINGS (Continued)

2025-006 (2023-006) – Equipment and Real Property Management (Material Weakness over Internal Controls over Compliance) (Repeated/Modified)

Questioned Cost: None.

Effect: The City could dispose of federally funded equipment without following federal guidelines.

Auditor recommendation: The auditor recommends the City enhance the design of its control activities and create a tool to assist in tracking and maintaining equipment purchased with federal funds. Additionally, the employees responsible for the inventory should be trained to ensure understanding of the Uniform Guidance requirements relevant to equipment and real property management. Periodic review should also be designed to evaluate compliance with relevant requirements.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. In FY25, The City contracted with a vendor to assist the Airport with federal compliance and provide training for Airport staff on relevant Uniform Guidance requirements. The vendor's scope of work included helping with developing and documenting policies and standard operating procedures related to equipment management.

Additionally, in late FY25, the Airport Department added a Grant Accountant position which is responsible for reconciling grant expenditures monthly. The Grant Accountant is also tasked to work with the Airport Heavy Equipment Mechanic to ensure that the inventory listing includes the funding source used for the purchase (i.e. federal or non-federal).

In CY26 the Finance Director, the Accounting Officer, and the Grants team will work with the Airport team to improve internal controls over equipment purchased with federal funds. Based on the policies developed for the Airport, additional tools will be developed to facilitate tracking and maintaining equipment purchased with federal funds. These tools will be developed to ensure that an accurate physical inventory contains the information required by the Uniform Guidance is conducted at year-end.

Responsible Official: Finance Director, Airport Manager, Airport Heavy Equipment Mechanic, Accounting Officer, Grants Manager.

2025-003 – Budgetary Compliance (Other Noncompliance)

Condition: The following funds were over-expended during the fiscal year 2025:

Fund	Fund Description	Budgeted Expenditures	Actual Expenditures	(Over) Budget
210	Capital Equipment Reserve	\$ 52,706	\$ 52,751	\$ (45)
211	Franchise Fee	-	2	(2)

340	CIP Land	-	162	(162)
930	UNSICKLV	-	84	(84)
950	Suspense	-	4	(4)

Criteria: City funds are to be budgeted by the local governing body and submitted to the State of New Mexico Department of Finance and Administration - Local Government Division for approval. Once adopted, any claims or warrants in excess of approved budget are in violation of New Mexico Statute - 6- 6, 1978. In addition, NMAC 2.2.2.10 (R) (1) requires an audit finding if actual expenditures exceed budget expenditures at the legal level of budgetary control.

Effect: Non-compliance with statutes regarding budgetary control.

Cause: Necessary budget adjustments were not completed prior to fiscal year end.

Auditor's Recommendation: The City should review total actual expenditures at the end of the fiscal year to the approved budget and submit budget adjustments to the New Mexico Department of Finance and Administration when appropriate.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. Using the current systems, it is challenging to monitor all funds, especially at fiscal year-end, when unanticipated expenditures or transfers arise for which the need for budget availability was not previously identified.

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

2025-003 – Budgetary Compliance (Other Noncompliance) (Continued)

Views of Responsible Officials and Planned Corrective Action: (Continued)

The largest discrepancy, for fund 242 Affordable Housing Trust Fund (AHTF), relates to a correction of an error in the presentation of the AHTF in previous years. Since at least the inception of the Munis ERP system in FY2020 the financial activity of the Affordable Housing Trust Fund (AHTF) was combined with other activity in the Community Development Grants Fund (Munis Fund 240) and presented as one fund in the City's financial statements. Other activities unrelated to the AHTF are also accounted for in the Community Development Fund.

In FY2025 the Finance Department and the Office of Affordable Housing began a project to reconcile and separate the activity of the AHTF from other transactions recorded in the Community Development Grant Fund. The Affordable Housing Trust Fund was established in 2007 by City ordinance 26-3. The AHTF is often referred to as a fund, including in the ordinance, and many stakeholders had the expectation that it was being accounted for as a separate fund. The Finance Director reviewed the ordinance during FY2025 and determined that the activity of the AHTF should be presented in the financial statements as a separate fund.

In the City's financial statements for the year ended June 30, 2025 the AHTF is presented as a separate fund, and in fiscal year 2026 (FY26) the process to establish a separate fund for the AHTF in Munis is underway. The FY2025 budget for the activity of the AHTF was established in Fund 240 Community Development Grant Fund. The AHTF portion of the budget was not moved over to the new separate AHTF fund 242 Affordable Housing Trust until after the FY2025 budget was finalized because the new fund had not yet been created in Munis.

Because of the NMDFA year-end deadline (July 31) requirement, and the timing of the July Council and City committee meeting schedules, budgetary compliance issues may result due to insufficient time to process budget amendments.

The second discrepancy, for fund 216 Gross Receipts Tax Fund, relates to GRT admin fees that were higher than anticipated. GRT admin fees came in higher than what was budgeted because actual GRT received was higher than what was budgeted. Due to the two-month lag between when GRT is earned and when the State distributes GRT to the City, the information that actual admin fees were more than what was budgeted in FY25 was received too late to process a budget amendment to increase budget authority. The GRT distribution for June was not received until late August, after the DFA deadline for budget adjustments (July 31).

Relating to fund 216 and the other funds identified in this finding, sometimes adjustments, such as depreciation expense and allocation of bank fees, are made during the audit prep process after the end of the fiscal year and after the DFA deadline for budget adjustments (July 31). For FY2025 the small budget overages, \$250 or less, are due to a year-end entry that allocated bank fees across all City funds.

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

2025-003 – Budgetary Compliance (Other Noncompliance) (Continued)

Views of Responsible Officials and Planned Corrective Action: (Continued)

The implementation of a more robust year-end close process including a hard close of the GL, as well as the monthly closing processes, ensure that information is recorded in Munis timelier, which allows for more accurate monitoring of the budget. The City is also implementing new budget software, Questica/EUNA, which will help modernize the budgeting process and will facilitate timelier budget-to-actuals monitoring including quarterly and monthly budget projection reports. The implementation of the Questica/EUNA modules for operating budget and personnel budget is in progress and is expected to be complete in February 2026. After Questica/EUNA is implemented the Budget Division plans to begin implementing additional monitoring of the budget during the fiscal year, including reviewing budget to actual reports on a quarterly basis to identify discrepancies that may require budget adjustments

2025-004 (2021-020) – Cash Appropriations in Excess of Available Cash Balances (Other Noncompliance) (repeated/modified)

Condition: The City budgeted deficits in excess of available cash balances in the following funds:

	Budgeted Deficit - Cash Appropriations	Beginning Year Cash & AR Available	Cash Appropriation in Excess of Available
Governmental Funds			
Major Funds			
The 1/2% Gross Receipts Tax Fund	(12,818,031)	(7,226,995)	(12,818,031)
Non Major Funds			
Bond Acquisition Fund	(1,454,507)	1,318,465	(136,042)

Community Development	(2,086,901)	734,964	(1,351,937)
Enterprise Funds			
Non Major Funds			
Municipal Recreation Complex	(4,309,615)	2,722,156	(1,587,459)

Management Progress on Repeat Findings: The City did not make progress on prior year corrective action plan.

Criteria: Section 2.2.2.10. (Q) and (R), NMAC, state that budgeted expenditures cannot exceed budgeted revenues in an amount more than prior year cash balance and any applicable federal receivables.

Effect: If budget deficits are not monitored closely, it could result in a funding shortfall.

Cause: The City did not identify that the budgeted deficits in the funds listed above were not covered by the prior balance of cash and federal receivables.

Auditor's Recommendation: The City should review and monitor future budgets for budgeted deficits that are not covered by ending cash and federal receivables as of the start of the fiscal year. Additionally, the City should review for adequate coverage of budget deficits as part of the budgeting process throughout the fiscal year.

Views of Responsible Officials and Planned Corrective: The City agrees with this finding. Regarding the ½% Gross Receipts Tax Fund (Fund 365), there were several issues impacting the budget and beginning of the year cash balance. The Fund 365 budget for FY2025 was built using a debt service schedule spreadsheet.

2025-004 (2021-020) – Cash Appropriations in Excess of Available Cash Balances (Other Noncompliance) (repeated/modified) (Continued)

Views of Responsible Officials and Planned Corrective: (Continued)

It was discovered in the last month of FY2025 that one of the outstanding debt series was not included in the formulas on the spreadsheet, and as a result one of the debt payments was missing. Due to the error in the spreadsheet the established FY2025 budget for debt service was short by about three million dollars.

Additionally, and also impacting Fund 365, an error in the GRT revenue allocations from FY2019 and FY2020 was identified by management during the early stages of the FY2025 audit. The prior year allocation of GRT revenues between Fund 365 and Fund 216 was found to be inverted, with the amount that should have gone to Fund 365 going to Fund 216. This resulted in the need to restate the beginning cash and fund balances for both funds. The restatement increases cash and fund balance in Fund 365 by over eighteen million dollars. When the restatement is taken into consideration the beginning of the year cash balance in Fund 365 is sufficient to cover the cash appropriations made from the fund in FY2025.

The City agrees that conducting periodic reviews for adequate coverage of budget deficits throughout the fiscal year would be helpful. The City is implementing new budget software, Questica/EUNA, which will help modernize the budgeting process and will facilitate timelier budget-to-actuals monitoring including quarterly and monthly budget projection reports. The reporting capabilities of the Questica/EUNA system will help the budget team conduct periodic reviews for adequate coverage of budget deficits. This will allow deficits and issues to be identified earlier, allowing time for entries to be made to resolve the deficits before the end of the fiscal year.

SECTION IV – SECTION 12-6-5 NMSA 1978 FINDINGS (Continued)

2025-005 – Stale Dated Checks (Other Matter)

Condition: The City had outstanding checks on two of their bank reconciliations at June 30, 2025 which included checks over a year old. The common bank account had 1,331 outstanding checks totaling \$244,178, and the general liability bank account had 12 outstanding checks totaling \$65,751. The City has not cancelled these items.

Criteria: New Mexico Statutes, Section 6-10-57 A, NMSA, 1978 compilation, requires local public bodies to cancel or void any checks that are unpaid for one year after it is written. 6-10-57 C NMSA, 1978 states that the face amount of warrants cancelled shall revert and be credited to the fund against which it was drawn.

Effect: The City's cash balance may be misstated by the amount of the stale checks, and is not in compliance with Section 6-10-57 A, NMSA, 1978.

Cause: The City is aware of the requirement and has been working on reviewing and reissuing stale-dated payments.

Auditor's Recommendation: We recommend that the stale dated checks be voided as soon as possible and that a procedure to track and void stale dated checks be implemented into bank reconciliation procedures.

Views of Responsible Officials and Planned Corrective Action: The City agrees with this finding. The Controller Division started working on the list of stale-dated checks in the 4th quarter of FY2025. The payee type was used to identify whether a particular payee is a vendor or a non-vendor so that we can review and confirm the address and reissue the payment. The outstanding checks are primarily comprised of vendors and refunds. The refunds primarily consist of utility account balances and deposits for use of City facilities. For those that are vendors, we are voiding and reissuing payments through the Munis A/P module. For non-vendors we are having to contact each payee to confirm their address. This is a time-consuming manual process. The A/P Supervisor is actively working on the list of stale-dated checks, and a staff member from the Public Utilities Department is reviewing the stale-dated utility refunds. Any payments that cannot be reissued by the City will be sent to the State of New Mexico Office of Unclaimed Property. The project is expected to be complete by the end of FY2026.

If the Base Rent increases during the term of this Lease Agreement, Lessee shall, upon written request from the City's Airport Manager or Administrative Manager, deposit additional monies with City so that the total amount of the Security Deposit shall always bear the same proportion to the increased Base Rent as the initial Security Deposit bore to the initial Base Rent. Should the Agreed Use be amended to accommodate a material change in the business of Lessee or to accommodate a sublessee or assignee, the City's Airport Manager shall have the right to increase the Security Deposit to the extent necessary, in the Airport Manager's reasonable judgment, to account for any increased wear and tear that the Premises may suffer as a result thereof. If a change in control of Lessee occurs during this Lease Agreement and following such change the financial condition of Lessee is, in the Airport Manager's reasonable judgment, significantly reduced, Lessee shall deposit such additional monies with City as shall be sufficient to cause the Security Deposit to be at a commercially reasonable level based on such change in financial condition. City shall not be required to keep the Security Deposit separate from its general accounts. Within 30 days after the expiration or termination of this Lease Agreement, if City elects to apply the Security Deposit only to unpaid Rent, and otherwise within 60 days after the Premises have been vacated, City shall return that portion of the Security Deposit not used or applied by City. No part of the Security Deposit shall be held in trust, to bear interest or to be prepayment for any monies to be paid by Lessee under this Lease Agreement.

26. CONSTRUCTION OF IMPROVEMENTS

- a. Construction Assurance. Prior to the commencement of any construction or work of improvement on the Premises ("Improvements"), Lessee shall furnish to Lessor evidence that sufficient monies will be available to complete the Improvements. Such evidence shall

represent at least the total estimated cost of construction and such evidence may take on of the following forms:

- i. Performance Bond - To be supplied by Lessee's contractor(s) and issued jointly to Lessee and Lessor as Obligee; or
 - ii. Irrevocable Letter of Credit – or other form of banker's assurance issued to Lessor from a financial institution licensed to do business in the State of New Mexico and covered by Federal Depository Insurance which shall remain in effect until Lessor acknowledges satisfactory completion of construction of Improvements.
- b. Turnover or Removal of Improvements.
- i. Turnover of Improvements – If Lessor directs that the Improvements be turned over to Lessor at the expiration of this Lease Agreement, they shall be turned over in a state of good condition and repair.
 - ii. Removal of Improvements – If Lessor directs that the Improvements be removed, all or in part, prior to the expiration or termination of this Lease Agreement, Lessee shall remove all Improvements from the Premises, at Lessee's sole cost. Lessee shall restore the portions of the Premises from which it removes any Improvements, as nearly as reasonably possible, to a level graded condition at Lessee's sole cost. If Lessee has not removed the Improvements in a reasonable amount of time after the expiration or termination of this Lease Agreement, then Lessor may, at its option, declare the Improvements to be Lessor-owned real property, use or dispose of the remaining personal property pursuant to applicable law, and otherwise restore the Premises at Lessee's sole cost.
 - iii. Removal of Hazardous Materials – All hazardous on the Premises used or stored by Lessee must be removed prior to the expiration or termination of this Lease Agreement, whether or not the Improvements remain on the Premises.

27. OBSERVATION OF LAWS, RULES, REGULATIONS, AND FAA GRANT ASSURANCES

Lessee and Lessor agree to observe and obey during the Term of this Lease, all laws, ordinances, minimum standards, rules and regulations promulgated and enforced by Lessor, and by any other proper authority having jurisdiction over the conduct of operations at the Airport, including the federal government, the state, the county and the City now or hereafter in effect.

28. FAIR AND NONDISCRIMINATORY SERVICES

Lessee, in the conduct of its authorized business activities, shall furnish good, prompt, and efficient service in compliance with all applicable laws, rules, and regulations adequate to meet the demand for its services at the Airport, and shall furnish such service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and agrees to furnish such services at fair, equal, and not unjustly discriminatory prices for each unit of sale or service; provided, however, that Lessee shall be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchases. Lessee agrees to operate the business in an ethical and professional manner and shall keep the Premises in a safe, clean, orderly, and inviting condition at all times,

satisfactory to the Lessor. Lessee shall not permit its employees or agents to solicit customers on public property.

29. CIVIL RIGHTS ASSURANCES

- a. Lessee agrees for itself, its employees, and its contractors and subcontractors that:
 - i. No person shall be excluded from participation in, benefits of, or otherwise subjected to discrimination in the use of the Airport on the basis of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, physical or mental disability, medical condition, national origin, or citizenship status;
 - ii. In the construction of any improvements on, over, or under the Airport and the furnishing of services thereon, no person shall be excluded from participation in, denied the benefits of, or otherwise subjected to discrimination on the grounds of ethnicity, race, age, religion, creed, color, national origin, ancestry, sex, gender, sexual orientation, physical or mental disability, medical condition, national origin, or citizenship status; and
 - iii. Lessee shall comply with all requirements imposed by or pursuant to Title 49, code of Federal Regulations, Subtitle A, Part 21 in using Airport premises or providing services initiated at the Airport.
 - iv. Lessee assures that it will undertake an affirmative action program as required by 14 C.F.R. Part 152, Subpart E, to ensure that no person shall be excluded from employment activities or any covered service or benefit on a prohibited basis by Lessee, an employee of Lessee, or any contractor or subcontractor.

30. ENVIRONMENTAL PROTECTIONS

- a. Lessee shall not commit or permit commission of any waste on the Airport, or any nuisance or other act or thing that may disturb the quiet enjoyment of the Airport or surrounding property. Lessee shall provide, as necessary, a separate drainage, collection, and/or separation system to ensure that no untreated liquid waste from any type of operation, including vehicle cleaning, fueling, and oil change operations, will enter the Airport storm drainage or sanitary system.
- b. Lessee shall, at all times, comply with all applicable laws, rules, and regulations of the federal, state, and local government entities. Lessee shall not permit any activity which directly or indirectly produces objectionable or unlawful amounts or levels of air pollution, noise, glare, heat emission, electronic or radio interference with navigational and communications facilities for the operation of the Airport and for Airport use by aircraft, trash, or refuse accumulation, vibration, prop-wash, or jet blast, or which is hazardous or dangerous by reason of risk of explosion, fire, or harmful emission. Any waste oil storage tanks shall be in approved containers and in accordance with all environmental and fire protections regulations.
- c. Hazardous substances are any substance, material, or waste, (including any petroleum products, solvents, thinners, herbicides and soil sterilants, and aircraft deicing fluids) which is or becomes designated, classified, or regulated as being "toxic," "hazardous," a "pollutant," or similar designation under any federal, state, or local law, regulation, or ordinance.

- d. Pursuant to Section 10 (Indemnification) above, Lessee agrees to defend, indemnify, and hold Lessor harmless from and against all liabilities, claims, actions, foreseeable and unforeseeable consequential damages, costs, and expenses (including sums paid in settlement of claims and all consultant, expert, and legal fees and expenses of Lessor's counsel) or loss directly or indirectly arising out of or resulting from the presence of any hazardous substance as a result of Lessee's or any contractor or sub-tenant's activities, whether before, during, or after construction, in or around any part of the property or the soil, groundwater or soil vapor on or under the property, including those incurred in connections with any investigation of site conditions or any cleanup, remedial, removal, or restoration work, or any resulting damages or injuries to the person or property or which is brought against Lessor, whether alone or together with Lessee or any other person.
- e. Lessee shall comply and cause all occupants of the property to comply with all laws, regulations, and ordinances governing or applicable to hazardous substances as well as the recommendations of any qualified environmental engineer or other expert which apply or pertain to the premises. Lessee acknowledges that hazardous substances may permanently and materially impair the value and use of real property. Lessee shall promptly notify Lessor if it knows, suspects, or believes there may be any hazardous substance in or around the property or in the soil, groundwater, or on or under the Airport, or that Lessee or the property may be subject to any threatened or pending investigation by any governmental agency under any law, regulation, or ordinance pertaining to any hazardous substance.

31. NONEXCLUSIVE RIGHTS

- a. Lessee shall have the exclusive right and privilege of engaging in and conducting a business on the Premises of the Airport under the terms and conditions set forth herein, provided, however, that this Agreement shall not be construed in any manner to grant Lessee or those claiming under Lessee in this Agreement the exclusive right to the use of the common areas and facilities of the Airport.
- b. Lessor shall have the right to lease other portions of the Airport or Airport Terminal to lessees, including other ground, air, and transportation services. Lessor shall not in the future form any other Agreement more favorable or less restrictive to Lessee's than set forth in this Agreement. Lessor understands and agrees that nothing in this Agreement shall be construed as granting or authorizing the granting of an exclusive right within the meaning of Section 308 of the Federal Aviation Act of 1958, as amended.

32. SUBORDINATE PROVISIONS

This Agreement is subject and subordinate to the terms, reservations, restrictions, provisions, and conditions of any existing or future agreement between the Airport and its appurtenant facilities, the execution of which have been or may be required as a condition precedent to the participation by any federal or state agency in the extension, expansion, or development of said airport or its facilities.

 - b. All budget changes and the fully executed contract must be submitted to the assigned NM ALTSD Senior Services Bureau (SSB) Program Coordinator for prior approval using the budget adjustment request (BAR) form accompanied by a letter of justification. Approval is at the discretion of the assigned NM ALTSD SSB Program Coordinator.

Attachment 3 Care Companion Program

Overview: The Care Companion Program (CCP) allows for AmeriCorps Senior Companion Programs (SCP) currently contracted with the State of NM Aging and Long-Term Services Dept. (NM Aging Services) to apply underutilized Senior Companion funds to be used for the dual purposes of engaging persons in volunteer service to meet critical community needs to the residents of long-term care facilities.

Long-term care facilities are assisted living or nursing home settings. Long term community residents are older adults and people with disabilities that are unable to live independently for various reasons.

Care Companion Program volunteers will provide regular visits at minimum a of 5 hours per week, per volunteer and up to 40 hours per week per volunteer (within budget) to long-term care community residents and develop “authentic” relationships that support socialization and engagement. Care Companions volunteers may receive stipends and meal/mileage reimbursements in the same fashion as AmeriCorps Senior Companion volunteers and will follow AmeriCorps SCP program guidelines; however, Care Companion Program volunteers will not be restricted by age and income requirements.

Goals and Objectives:

Provide support and companionship to older adults 55 and older and people with disabilities residing in assisted living and long-term care facilities. Some examples of companionship and support services include:

- Friendly conversation and company, perhaps while doing hobbies etc.
- Providing company and companionship.
- Emotional support and socialization

What makes a good companion?

To be a good companion, you need to be respectful and caring. Listening to their stories, looking at old photos, or playing music from their youth are great ways to be good companions.

Benefits to long-term care facility residents:

Lessening the feeling of isolation for adults 55 and older and people with disabilities is important to their mental and physical health. Care Companion Program volunteers can help provide ongoing companionship and emotional support. Compassionate and attentive companions can provide social interaction, engage in conversation, and help dispel feelings of loneliness.

ANDREA PHILLIPS (Feb 20, 2026 11:24:25 MST) **Date:** 02/20/2026**Summary:**

The proposed Bill would amend SFCC 1987, Section 2-8.2 to reorganize the City's departmental structure. As part of the reorganization of the City's code itself, the bill proposes the following changes:

- 1) The creation of six new sections of city code to include 2-8.10 through 2-8.15; and
- 2) A reorganization of various City departments into new code locations; and
- 3) The inclusion of a newly created "General Provisions" section that includes definitions for "departments" and "divisions" as well as the inclusion of Exhibit A "City of Santa Fe Organizational Chart: Subsection 2-8.1", representing the offices of the Mayor, City Clerk, City Manager, City Attorney and all departments reporting directly to the City Manager; and
- 4) As technical "clean-up" the repeal of Sections 2-14, 2-15, and 2-20 as well as the repeal of Exhibit C of SFCC 1987, "City Organization".

Additionally, the bill makes the following changes to the City's organizational structure:

- 1) Renaming the Community Health and Safety Department the "Community Services Department" and reorganizing to include Youth and Family Services and Recreation, and to remove the Office of Emergency Management; and
- eliminating the Community Development Department; and
- 2) Establishing the Emergency Management Department; and
- 3) Reorganizing the Economic Development Department to include the Arts and Culture Division and the Film Division; and
- 4) Reorganizing the Land Use Department to include the Affordable Housing Division; and
- 5) Creating the TOURISM Santa Fe Department; and
- 6) Establishing a new "Regional Airport Department"; and
- 7) Creating the "Metropolitan Redevelopment Agency ("MRA") Department".

Departments Affected:

See summary above for departmental restructure; City Manager's Office.

Consequences of Not Enacting Legislation:

If this legislation is not adopted, if this legislation is not adopted, the City's departmental structure would remain the same.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:

This bill reorganizes the City departmental structure established in Ordinance No. 2020-22 and 2025-8.

Performance and Administrative Implications:

This bill will result in an increase in the number of departments reporting directly to the City Manager. The changes create potential for increased operational responsiveness.

Fiscal Implications:

The proposed bill will result in the elimination of a two director positions – Community Health and Safety and Community Development Director. This will result in cost savings of \$151,747 for the remainder of FY26 and \$496,271 in both FY27 and FY28.

ITEM AND ISSUE:

The resolution approves budget amendments for the Buckman Direct Diversion and Santa Fe Solid Waste Management Agency and requests Department of Finance and Administration approval of City of Santa Fe ("City") budget amendments for the fiscal year quarter ending December 31, 2025 (Second Quarter).

BACKGROUND AND SUMMARY:

Attached is a resolution listing increases/decreases to the Fiscal Year 2025-2026 (FY2025/26) operating and capital projects budget. These amendments are included in this resolution because they result in a net increase or decrease to the various funds affected, and thus require approval from the New Mexico Department of Finance/Local Government Division (DFA/LGD) as part of the quarterly budget resolution. The schedule of detail supporting these increases/decreases is presented as Exhibit A of the proposed resolution in four sections:

- A. Sub-Section A: Amendments to FY 2025/26 Budget That Have Previously Been Approved by the Governing Body: these budget amendments have been previously approved by the Governing Body and reflect amendments that exceed \$60,000 and result in a net increase or decrease to any funds (and do not represent re-appropriations of unspent budget amounts from the prior year); per City ordinance, such amendments require Governing Body approval. They are included in this resolution for the purpose of summarizing all quarterly budget amendments on a single resolution to provide to DFA/LGD for its review and approval. Presentation of these amendments in a single resolution in this way is much more efficient than the alternative of presenting a revised resolution to DFA/LGD for each individual budget amendment approved by the Governing Body.
- B. Sub-Section B: Amendments to FY 2025/26 Budget Previously Approved by other City Actors pursuant to SFCC 1987, Section 11-4 (A), (B) and (G): these amendments were approved by and executed under the authority of the Finance Director (if the net budgetary change to any fund was under \$5,000) or the City Manager (if the net budgetary change was between \$5,000 and

\$60,000), per City ordinance. Also included are purely technical corrections and re-appropriations of unspent prior year budget amounts (including amounts over \$60,000), which, per City ordinance, the Finance Director may approve based on the prior year's Governing Body-approved budget authority.

- C. Sub-Section C: Joint Operations (Buckman Direct Diversion & Santa Fe Solid Waste Management Agency) – Board-Approved Amendments to FY 2025/26 Budget: as the title of this section states, these amendments reflect net changes to the Buckman Direct Diversion and Santa Fe Solid Waste Management Agency joint operations budgets, approved and entered under the authority of the governing boards of those entities, contingent upon City approval. Like the amendments outlined above, these budgetary changes are included in this resolution for the purpose of presenting all quarterly net budgetary fund changes to DFA/LGD for its approval as required by New Mexico state statute.
- D. Sub-Section D: Summary of All Quarterly Amendments to FY 2025/26 Budget by Fund: this section summarizes the net changes to all City funds detailed in the previous three sections (A-C). As shown at the bottom of this section, these amendments result in a net increase to the City's overall expenditure budget of \$89,894,677 and a net increase to the overall revenue budget of \$72,446,915. The resulting net expenditure increase of \$17,447,762 (over and above additional revenue) is supported by current budgeted revenues and/or available fund balances.

Pursuant to SFCC 1987, Section 11-4 (D), the Budget Office summarizes all amendments resulting in net budgetary fund changes in a Resolution on a quarterly basis for Finance Committee consideration and Governing Body approval of the Resolution and subsequently submits said amendments to DFA/LGD for its approval.

ACTION RECOMMENDED:

Finance staff recommend that the Governing Body approve the resolution. Upon approval, the Resolution will be forwarded to DFA/LGD for its approval as is required by New Mexico state statute.

RE: DWSRLF Loan for Flocculation Sedimentation Upgrades at Canyon Road Water Treatment Plant

EXECUTIVE SUMMARY:

The proposed bill would authorize the execution and delivery of a Drinking Water State Revolving Fund loan and subsidy agreement in the total amount of \$17,000,000 between the New Mexico Finance Authority and the City of Santa Fe ("City"). The loan would be for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Canyon Road Water Treatment Plant. This bill specifies that the loan be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City. The Loan shall be in the maximum principal amount of \$17,000,000 with a maximum forgiven principal amount of \$8,500,000 and a maximum repayable principal amount of \$8,500,000.

BACKGROUND:

The City entered into a contract with Bradbury Stamm Construction in the total amount of \$21,882,300, exclusive of sales tax, to complete the Flocculation and Sedimentation Improvements project at the Canyon Road Water Treatment Plant. This project will upgrade critical infrastructure at the facility, which provides potable drinking water to the residents of the city of Santa Fe. The City's Water Division is funding the project through a combination of Drinking Water State Revolving Loan Fund, which includes a significant principal loan forgiveness component, along with Water Trust Board Fundin and Water Enterprise Fund moneys.

(a) Binding Nature of Covenants; Enforceability. All representations, covenants, stipulations, obligations and agreements of the Governmental Unit contained in this Loan Agreement shall be deemed to be the representations, covenants, stipulations, obligations and agreements of the Governmental Unit to the full extent authorized or permitted by law, and such representations, covenants, stipulations, obligations and agreements shall be binding upon the Governmental Unit and its successors and enforceable in accordance with their terms, and upon any board or body to which any powers or duties affecting such representations, covenants, stipulations, obligations and agreements shall be transferred by or in accordance with law. Except as otherwise provided in this Loan Agreement, all rights, powers and privileges conferred and duties and liabilities imposed upon the Governmental Unit by the provisions of this Loan Agreement and the Ordinance shall be exercised or performed by the Governmental Unit or by such members, officers, or officials of the Governmental Unit as may be required by law to exercise such powers and to perform such duties.

(b) Authorization of the Loan Agreement, and Readiness to Proceed. The Governmental Unit is a municipality, and is duly organized and existing under the statutes and laws of the State, including specifically the home rule charter of the Governmental Unit adopted under Article X Section 6 of the New Mexico Constitution and the Municipal Code, NMSA 1978, §§ 3-15-1 through 3-15-16, all as amended. (i) The Governmental Unit shall, within two (2) years after the Closing Date, have completed the acquisition of the Project, and shall within twenty-seven (27) months after the Closing Date have requisitioned the Aggregate Program Amount, or such portion thereof as shall be necessary to complete the Project, unless an extension is agreed to pursuant to Section 4.1(b) of this Loan Agreement.

(d) Payment of Loan Agreement Payments. The Governmental Unit meets and will continue to meet the requirements established by the NMFA to assure sufficient Pledged Revenues to operate and maintain the System for its useful life and repay the Loan. The Governmental Unit shall promptly pay Loan Agreement Payments, as specified in the Interim Loan Agreement Payment Schedule or the Final Loan Agreement Payment Schedule, as applicable, according to the true intent and meaning of this Loan Agreement. Loan Agreement Payments are payable solely from Pledged Revenues or from the proceeds of refunding bonds or other refunding obligations which the Governmental Unit may hereafter issue in its sole discretion and which are payable from Pledged Revenues; and nothing in this Loan Agreement shall be construed as obligating the Governmental Unit to pay Loan Agreement Payments from any general or other fund of the Governmental Unit other than such special funds. Nothing contained in this Loan Agreement, however, shall be construed as prohibiting the Governmental Unit in its sole and absolute discretion, from making such payments from any moneys which may be lawfully used, and which are legally available, for that purpose.

(e) Acquisition and Completion of Project; Compliance with Laws. The Project will be acquired and completed so as to comply with all applicable ordinances, resolutions and regulations, if any, and any and all applicable laws relating to the acquisition and completion of the Project and to the use of the Pledged Revenues. The Governmental Unit shall exercise its power of eminent domain, if needed to comply with this paragraph.

(f) Necessity of Project. (i) Use of Project. During the Loan Agreement Term, the Project will at all times be used for the purpose of benefiting the Governmental Unit and the public it serves.

(k) No Breach or Default Caused by Loan Agreement. Neither the execution and delivery of this Loan Agreement and the other documents related to this transaction, nor the fulfillment of or compliance with the terms and conditions in this Loan Agreement and the other documents related to this transaction, nor the consummation of the transactions contemplated herein, conflicts with or results in a breach of terms, conditions or provisions of any restriction or any agreement or instrument to which the Governmental Unit is a party or by which the Governmental Unit is bound or any laws, ordinances, governmental rules or regulations or court or other governmental orders to which the Governmental Unit or its properties are subject, or constitutes a default under any of the foregoing.

(l) Irrevocable Enactments. While this Loan Agreement remains outstanding and unpaid, any ordinance, resolution or other enactment of the Governing Body applying the Pledged Revenues for the payment of this Loan Agreement shall be irrevocable until this Loan Agreement has been paid in full as to both principal and interest, and shall not be subject to amendment or modification in any manner which would in any way jeopardize the timely payment of Loan Agreement Payments.

(m) Outstanding and Additional Debt. Except for the Subordinate Parity Obligations and Senior Obligations described on the Term Sheet, there are currently no outstanding bonds, notes or other obligations of the Governmental Unit which are payable from and secured by a lien on the Pledged Revenues superior to or on a parity with the lien of this Loan Agreement. No additional indebtedness, bonds or notes of the Governmental Unit, payable on a parity with or on a priority ahead of the indebtedness herein authorized out of Pledged Revenues, shall be created or incurred while this Loan Agreement remains outstanding without the prior written approval of the NMFA.

(n) No Litigation. To the knowledge of the Governmental Unit after due investigation, no litigation or proceeding is pending or threatened against the Governmental Unit or any other person affecting the right of the Governmental Unit to execute or deliver this Loan Agreement and the other documents related to this transaction or to comply with its obligations under this Loan Agreement and documents related to the transaction. Neither the execution and delivery of this Loan Agreement and the other documents related to the transaction by the Governmental Unit nor compliance by the Governmental Unit with the obligations under this Loan Agreement and the other documents related to the transaction, requires the approval of any

regulatory body, or any other entity, which approval has not been obtained or which is not reasonably expected to be obtained.

(o) No Event of Default. No event has occurred and no condition exists which, upon the execution and delivery of this Loan Agreement and the other documents related to the transaction, would constitute an Event of Default on the part of the Governmental Unit under this Loan Agreement and the other documents related to the transaction.

(p) Existing Pledges; Pledged Revenues Not Budgeted. Except as described on the Term Sheet the Pledged Revenues have not been pledged or hypothecated in any manner for any purpose at the time of execution and delivery of this Loan Agreement. The portion of the Pledged Revenues necessary to pay the Loan Agreement Payments, as and when due, is not needed or budgeted to pay current or anticipated operational or other expenses of the Governmental Unit.

(q) Expected Coverage Ratio. The Pledged Revenues from the current Fiscal Year are projected to equal or exceed one hundred twenty percent (120%) and, on an ongoing basis during each year of the Loan Agreement Term are reasonably expected to equal or exceed one hundred twenty percent (120%) of the Debt Service Requirements on all Senior Obligations and all Subordinate Parity Obligations Outstanding in such Fiscal Year.

(r) Governmental Unit's Existence. The Governmental Unit will maintain its legal identity and existence so long as System Bonds remain outstanding, unless another political subdivision by operation of law succeeds to the liabilities, rights and duties of the Governmental Unit under this Loan Agreement without adversely affecting to any substantial degree the privileges and rights of the NMFA. However, the Governmental Unit may, annex or de-annex land if the Governmental Unit complies with other applicable covenants contained in the Master Ordinance.

(s) Continuing Disclosure. The Governmental Unit covenants that it shall provide continuing disclosure to the NMFA, as the NMFA may require, that shall include, but not be limited to: Project documents, annual audits, operational data required to update information in any disclosure documents used in connection with assignment or securitizing the Loan Agreement or the Loan Agreement Payments by issuance of Bonds by the NMFA, and notification of any event deemed material by the NMFA. For the purposes of this Loan Agreement, a material event shall include, without limitation, any violation of federal law, regulation, or policy which governs or applies to participants in the Drinking Water State Revolving Loan Fund program which is alleged or found by a state or federal agency of appropriate jurisdiction.

(t) Single Audit Act Requirement. The Governmental Unit acknowledges that the funding provided pursuant to this Loan Agreement is derived in large part from federal grants to the Drinking Water State Revolving Loan Fund program pursuant to the Operating Agreement. During the Loan Agreement Term, the Governmental Unit shall annually, so long as the Governmental Unit expends more or equal to the threshold amount set forth in 2 C.F.R. Section 200.501 during any one Fiscal Year, cause an audit of the books and accounts of its operations in their entirety, in accordance with § 200.514, except when it elects to have a program-specific audit conducted in accordance with 2 C.F.R. 200.501(c) to be completed by an Independent Accountant

in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. Section 7501 et seq.), and applicable regulations thereunder. The Governmental Unit shall notify the NMFA and the Drinking Water State Revolving Loan Fund program when it conducts an audit in accordance with 2 C.F.R. Section 200.501. The Governmental Unit shall provide a copy to the NMFA and the Drinking Water State Revolving Loan Fund program of such audit within 30 days of completion. The Governmental Unit will inform the Drinking Water State Revolving Loan Fund program and the NMFA of any findings and recommendations pertaining to the Drinking Water State Revolving Loan Fund contained in the audit. The Governmental Unit will also submit the audit to the Federal Audit Clearinghouse within the earlier of 30 calendar days after receipt of the auditor's report(s) or nine months of the end of the audit period pursuant to 2 CFR § 200.512. The Governmental Unit will inform the Drinking Water State Revolving Loan Fund program and NMFA that the audit has been submitted to the Federal Audit Clearinghouse and provide a copy to the Drinking Water State Revolving Loan Fund program and NMFA upon request. The audit will also be available for inspection by the NMFA Environmental Protection Agency.

(u) Construction Requirements. The Governmental Unit shall require any contractor hired by it in connection with the construction of the Project to post a performance and payment bond as provided by NMSA 1978, § 13-4-18, as amended.

Section 2.2 Protective Covenants Regarding Operation of the System.

The Governmental Unit further represents, covenants and warrants as follows:

(a) Rate Covenant.

(i) The Governmental Unit covenants that it will at all times fix rates and collect charges for each class of service rendered by the System, and to, from time to time, amend or adjust such rates so that Gross Revenues of the System shall always be sufficient to provide for the payment of expenses of administration, Operation and Maintenance Expenses, other expenses which may be necessary to preserve the System in good repair and working order, including the necessary reserves therefor and all other payments necessary to meet ongoing legal obligations to be paid at that time; and

(ii) The Governmental Unit further covenants that it will at all times fix, charge and collect such rates and charges as shall be required in order that in each Fiscal Year the Pledged Revenues shall at least equal (i) 130% of the Debt Service Requirements on all Senior Obligations outstanding in such Fiscal Year and (ii) 120% of the Debt Service Requirements on all Senior Obligations and all Subordinate Parity Obligations outstanding in such Fiscal Year.

(iii) Failure by the Governmental Unit to comply with the foregoing Rate Covenant in any Fiscal Year will not constitute an event of default under the Master Ordinance so long as the Governmental Unit, within 180 days after the end of any such Fiscal Year, adopts the schedule of rates and charges recommended or approved by a Consulting Engineer which would bring the Governmental Unit into compliance with the Rate Covenant. The Governmental Unit is also required under the Master Ordinance in each Fiscal Year to complete a review of its financial condition for the purpose of estimating whether the Net Revenues for such Fiscal Year and for the

next succeeding Fiscal Year will be sufficient to comply with the Rate Covenant set forth above. If the Governmental Unit determines that the Net Revenues may not be so sufficient, it shall forthwith cause the Consulting Engineer to make a study for the purpose of recommending a schedule of fees, rates and charges for the System which, in the opinion of the Consulting Engineer, will cause sufficient Gross Revenues to be collected in such Fiscal Year to comply with the Rate Covenant set forth above and will cause additional Gross Revenues to be collected in such Fiscal Year sufficient to eliminate the amount of any deficiency at the earliest practicable time within such Fiscal Year. The Governmental Unit shall as promptly as practicable adopt and place in effect the schedule of fees, rates and charges recommended or approved by the Consulting Engineer pursuant to the Master Ordinance. In the alternative of establishing fees, rates and charges necessary to meet the Rate Covenant set forth above, the Governmental Unit may implement reductions in Operation and Maintenance Expenses for the System in an amount sufficient to meet the Rate Covenant.

(b) Lien on Lands Serviced by the System. State law grants the Governmental Unit a lien upon each lot or parcel of land for the charges imposed for water services supplied by the System to the owner of such lot or parcel (except as otherwise provided in NMSA 1978, § 3-23---6). The Governmental Unit will cause each lien to be perfected in accordance with the provisions of NMSA 1978, §§ 3-23--6 and 3--36--1 through 3--36---5. The Governmental Unit will take all necessary steps to enforce the lien against any parcel of property the owner of which is delinquent for more than six (6) months in the payment of charges imposed for the use of the System.

(c) Levy of Charges. The Governmental Unit will promptly fix, establish and levy the rates and charges which are required by Section 2.2(a) hereof. Unless contrary to any provision of applicable law, any resolution or ordinance adopted by the Governing Body to fix, establish and levy such rates and charges shall be deemed an administrative or executive matter not subject to the referendum provisions of the Charter or State law. No reduction in any initial or existing rate schedule for the System may be made unless:

(i) The Governmental Unit has fully complied with the requirements of the rate covenant contained in Section 2.2(a) hereof for any twelve (12) consecutive months out of the sixteen (16) calendar months immediately preceding the reduction of the rate schedule, and

(ii) The audit required by Section 26.09 of the Master Ordinance or a separate certificate by an Independent Accountant for or relating to any twelve (12) consecutive months out of the sixteen (16) calendar months immediately preceding any reduction discloses that the Pledged Revenues resulting from the proposed rate schedule would have been sufficient to meet the rate covenant contained in Section 2.2(a) hereof during the applicable twelve (12) month period.

(d) Efficient Operation. The Governmental Unit will maintain the System in efficient operating condition and make such improvements, extensions, enlargements, repairs and betterments to the System as may be necessary or advisable for its economical and efficient operation at all times and sufficient to supply reasonable public and private demands for System services within the Service Area of the System.

(e) Records. So long as this Loan Agreement remains outstanding, proper books of record and account will be kept by the Governmental Unit in accordance with Generally Accepted Accounting Principles, separate from all other records and accounts, showing complete and correct entries of all transactions relating to the System. However, pursuant to NMSA 1978, § 6-14-10(E), as amended, records with regard to the ownership or pledge of System Bonds are not subject to inspection or copying.

(f) Right to Inspect. The NMFA, or its duly authorized agents, shall have the right to inspect at all reasonable times the Project and all records, accounts and data relating to the Project, the Pledged Revenues and the System.

(g) Audits. Within one hundred eighty (180) days following the close of each Fiscal Year, the Governmental Unit will cause an audit of the books and accounts of the System and its separate systems to be made by an Independent Accountant and the audit to be made available for inspection by the NMFA. Each audit of the System shall comply with Generally Accepted Accounting Principles. The audit required by this section may, at the Governmental Unit's discretion, be performed as a part of or in conjunction with the audit required under the Single Audit Act as set forth in Section 2.1(t) of this Loan Agreement.

(h) Billing Procedure. Bills for water services, furnished by or through the System shall be rendered to customers on a regular basis each month following the month in which the service was rendered and shall be due as required by the applicable ordinance, resolution, regulation or policy of the Governmental Unit. To the extent permitted by law, if a bill is not paid within the period of time required by such ordinance, water services shall be discontinued as required by Governmental Unit ordinance, and the rates and charges due shall be collected in a lawful manner, including, but not limited to, the cost of disconnection and reconnection.

(i) Charges and Liens Upon System. The Governmental Unit will pay when due from Gross Revenues or other legally available funds all taxes and assessments or other municipal or governmental charges, lawfully levied or assessed upon the System and will observe and comply with all valid requirements of any municipal or governmental authority relating to the System. The Governmental Unit will not create or permit any lien or charge upon the System or the Gross Revenues or it will make adequate provisions to satisfy and discharge within sixty (60) days after the same accrue, all lawful claims and demands for labor, materials, supplies or other objects, which, if unpaid, might by law become a lien upon the System or the Gross Revenues. However, the Governmental Unit shall not be required to pay or cause to be discharged, or make provision for any tax assessment, lien or charge before the time when payment becomes due or so long as the validity thereof is contested in good faith by appropriate legal proceedings and there is no adverse effect on NMFA.

(j) Insurance. Subject, in each case, to the condition that insurance is obtainable at reasonable rates and upon reasonable terms and conditions, in its operation of the System, the Governmental Unit will procure and maintain or cause to be procured and maintained commercial insurance or provide Qualified Self Insurance with respect to the facilities constituting the System and public liability insurance in the form of commercial insurance or Qualified Self Insurance and, in each case, in such amounts and against such risks as are, in the judgment of the

Governing Body, prudent and reasonable taking into account, but not being controlled by, the amounts and types of insurance or self-insured programs provided by entities which operate systems such as the System. "Qualified Self Insurance" means insurance maintained through a program of self insurance or insurance maintained with a fund, company or association in which the Governmental Unit may have a material interest and of which the Governmental Unit may have control, either singly or with others. Each plan of Qualified Self Insurance shall be established in accordance with law, shall provide that reserves be established or insurance acquired in amounts adequate to provide coverage which the Governmental Unit determines to be reasonable to protect against risks assumed under the Qualified Self Insurance plan, including any potential retained liability in the event of the termination of such plan of Qualified Self Insurance. In the event of property loss or damage to the System, insurance proceeds shall be used first for the purpose of restoring or replacing the property lost or damaged and thereafter, and any remainder may be used to redeem System Bonds or be treated as Gross Revenues and used in any legally permissible manner.

(k) Competing Utility System. Unless contrary to any provision of, or required by, applicable law, as long as this Loan Agreement is outstanding, the Governmental Unit prior to granting any franchise or license to a competing utility system, or permitting any person, association, firm or corporation to sell similar utility services or facilities to any consumer, public or private, within the Service Area of the System; provided, however, that nothing herein shall prevent the Governmental Unit from annexing land into its boundaries solely due to the fact that there is a competing utility system or person, association, firm or corporation providing such utility services or facilities within or for the land to be annexed.

(l) Alienating System. While the System Bonds are outstanding, the Governmental Unit shall not, except as permitted below, transfer, sell, or otherwise dispose of the System. For purposes of this Section 2.2(l), any transfer of an asset over which the Governmental Unit retains or regains substantial control shall not, for so long as the Governmental Unit has such control, be deemed a disposition of the System.

The Governmental Unit may transfer, sell or otherwise dispose of the System only if such transfer, sale or disposition complies with one or more of the following provisions:

(i) The property being disposed of is inadequate, obsolete or worn out;
or

(ii) The property proposed to be disposed of and all other property of the System disposed of during the twelve (12) month period ending on the day of such transfer (but excluding property disposed of under Subsection 2.2(l)(i) above) will not, in the aggregate, constitute a Significant Portion of the System determined as described below and the proceeds are deposited into the Income Fund to be used as described below; or

(iii) The Governmental Unit receives fair market value for the property, the proceeds are deposited into the Income Fund to be used as described below and prior to the disposition of such property there is delivered to the Fiscal Agent a certificate of a Consultant to the effect that notwithstanding such disposition, but taking into account the use of such proceeds

in accordance with the expectations of the Governmental Unit as evidenced by a certificate of an Authorized Officer, the Consultant estimates that the Governmental Unit will be in compliance with the rate covenant in Section 2.2(a) hereof during each of the five (5) Fiscal Years immediately following such disposition.

For purposes of this Section 2.2(l), the term “Significant Portion” of the System means property of the System which, if such property had been disposed of by the Governmental Unit at the beginning of the Fiscal Year which includes the month of commencement of the twelve (12) month period referred to in Subsection 2.2(l)(ii) above would have resulted in a reduction in Net Revenues for such Fiscal Year of more than four percent (4%) when the actual Net Revenues for such Fiscal Year are decreased by the revenues directly attributable to such property of the System and increased by the expenses of the Governmental Unit directly attributable to such property of the System.

Proceeds of the disposition of assets under the Subsection 2.2(l)(ii) or 2.2(l)(iii) above shall be deposited in the Income Fund and used, within a reasonable period of time, not to exceed three years, to (a) provide additional revenue-producing properties to the System, (b) redeem System Bonds or (c) create an escrow fund pledged to pay specified System Bonds and thereby cause such System Bonds to be deemed to be paid as provided in the Master Ordinance.

Properties of the System which were financed with the proceeds of obligations the interest on which is then excluded from gross income for federal income tax purposes shall not be disposed of, except under the terms of provision 2.2(l)(i) above, unless the Governmental Unit has first received a written opinion of Bond Counsel to the effect that such disposition will not cause the interest on such obligations to become includable in gross income for federal income tax purposes.

No such disposition shall be permitted which would cause the Governmental Unit to be in default of any other covenant contained in the Master Ordinance.

(m) Competent Management. The Governmental Unit shall employ experienced and competent personnel to manage the System.

(n) Performing Duties. The Governmental Unit will faithfully and punctually perform all duties with respect to the System required by the Constitution and laws of the State and the ordinances and resolutions of the Governmental Unit relating to the System and this Loan Agreement, including, but not limited to, making and collecting reasonable and sufficient rates and charges for services rendered or furnished by the System as required by this Section and the proper segregation and application of the Gross Revenues.

(o) No Other Liens. Except for those Senior Obligations, Subordinate Parity Obligations, and Super Subordinate Obligations listed in the Term Sheet, there are no liens or encumbrances of any nature whatsoever, on or against the System or the Gross Revenues or Net Revenues on parity with, subordinate or senior to the lien of this Loan Agreement.

(p) Free Services Prohibited. No free service, facilities nor commodities shall be furnished by the System. Should the Governmental Unit use water services or facilities supplied by the System for municipal purposes, or any combination thereof, or in any manner use the System, or any part thereof, any use of the System by or of the services rendered thereby to the Governmental Unit, or any department, board or agency thereof, will be paid for from the Governmental Unit's general fund or other available revenues at the reasonable value of the use so made, or service so rendered, which shall in no event be less than the rates charged to a System customer with similar consumption; and all the revenue so derived from the Governmental Unit shall be deemed to be income derived from the operation of the System, to be used and accounted for in the same manner as any other income derived from the operation of the System.

Section 2.3 Representations, Covenants and Warranties of the NMFA. The NMFA represents, covenants and warrants for the benefit of the Governmental Unit as follows:

(a) Legal Status and Authorization of Loan Agreement. The NMFA is a public body politic and corporate constituting a governmental instrumentality, separate and apart from the State, duly organized and created under and pursuant to the laws of the State, particularly the NMFA Act. The NMFA has all necessary power and authority to enter into and perform and observe the covenants and agreements on its part contained in this Loan Agreement and has duly authorized the execution and delivery of this Loan Agreement.

(b) No Breach or Default Caused by Loan Agreement. Neither the execution and delivery of this Loan Agreement, nor the fulfillment of or compliance with the terms and conditions of this Loan Agreement, nor the consummation of the transactions contemplated in this Loan Agreement, conflicts with or results in a breach of the terms, conditions and provisions of any restriction or any agreement or instrument to which the NMFA is a party or by which the NMFA is bound or constitutes a default under any of the foregoing and will not conflict with or constitute a violation of any constitutional or statutory provision or order, rule, regulation, decree or ordinance of any court, government or governmental authority having jurisdiction over the NMFA, or its property and which conflict or violation will have a material adverse effect on the NMFA or the financing of the Project.

(c) No Litigation. To the knowledge of the NMFA, there is no litigation or proceeding pending or threatened against the NMFA or any other person affecting the right of the NMFA to execute or deliver this Loan Agreement or to comply with its obligations under this Loan Agreement. To the knowledge of the NMFA, neither the execution and delivery of this Loan Agreement by the NMFA, nor compliance by the NMFA with its obligations under this Loan Agreement, requires the approval of any regulatory body, or any other entity, which approval has not been obtained.

(d) Legal, Valid and Binding Obligation. This Loan Agreement constitutes a legal, valid and binding obligation of the NMFA enforceable in accordance with its terms.

ARTICLE V

LOAN TO THE GOVERNMENTAL UNIT; PAYMENTS BY THE GOVERNMENTAL UNIT

Section 5.1 Loan to the Governmental Unit; Payment Obligations Limited to Pledged Revenues; Pledge of Pledged Revenues. The NMFA hereby lends to the Governmental Unit and the Governmental Unit hereby borrows from the NMFA an amount not to exceed the Maximum Principal Amount. The Governmental Unit promises to pay, but solely from the sources pledged herein, the Loan Agreement Payments as herein provided. Subject to any outstanding Senior Obligations and Subordinate Parity Obligations, the Governmental Unit does hereby grant a lien on and a security interest in and does hereby convey, assign and pledge unto the NMFA and unto its successors in trust forever all right, title and interest of the Governmental Unit in and to (i) the Pledged Revenues to the extent required to pay the Loan Agreement Payments on a parity with any Subordinate Parity Obligations and subordinate to any Senior Obligations, (ii) the Debt Service Account, and (iii) all other rights hereinafter granted, for the securing of the Governmental Unit's obligations under this Loan Agreement, including payment of the Loan Agreement Payments, provided, however, that if the Governmental Unit, its successors or assigns, shall pay, or cause to be paid, all Loan Agreement Payments at the time and in the manner contemplated by this Loan Agreement, or shall provide as permitted by Article VIII of this Loan Agreement for the payment thereof and shall pay all other amounts due or to become due under this Loan Agreement in accordance with its terms and provisions then, upon such final payment, this Loan Agreement and the rights created thereby shall terminate; otherwise, this Loan Agreement shall remain in full force and effect, unless terminated by NMFA pursuant to Section 4.3 of this Loan Agreement. The Loan Agreement Payments shall, in the aggregate, be sufficient to pay the Aggregate Repayable Disbursements, as set forth in the Interim Loan Agreement Payment Schedule or the Final Loan Agreement Payment Schedule, as applicable.

Within five (5) days after each payment of an Approved Requisition during the Interim Period, the NMFA shall recalculate on the basis of the Aggregate Repayable Disbursements to that

date the Interest Component and Administrative Fee Component next coming due as set out in Section 5.2(a)(i) of this Loan Agreement and shall provide written notice to the Governmental Unit of the recalculated Interest Component and Administrative Fee Component. Within thirty (30) days after the final Disbursement, the NMFA shall provide a Final Loan Agreement Payment Schedule. The schedule of Loan Agreement Payments, assuming the disbursal of the entire Aggregate Program Amount within twenty-seven (27) months after the Closing Date, identified as the Interim Loan Agreement Payment Schedule, is attached to this Loan Agreement as Exhibit “B”. The NMFA shall provide a Final Loan Agreement Payment Schedule following the final Disbursement which shall supersede the schedule attached as Exhibit “B”.

The pledge of the Pledged Revenues and the lien thereon shall be effective upon the Closing Date. The Governmental Unit and the NMFA acknowledge and agree that the sources of the Loan Agreement Payments of the Governmental Unit hereunder are limited to the Pledged Revenues, and that the Loan Agreement shall constitute a special, limited obligation of the Governmental Unit. No provision of this Loan Agreement shall be construed or interpreted as creating a general obligation or other indebtedness of the Governmental Unit or the State within the meaning of any constitutional or statutory debt limitation. No provision of this Loan Agreement shall be construed to pledge or to create a lien on any class or source of Governmental Unit moneys other than the Pledged Revenues, nor shall any provision of this Loan Agreement restrict the future issuance of any bonds or obligations payable from any class or source of Governmental Unit moneys other than the Pledged Revenues. In addition, to the extent not required for the payments under Article XVIII of the Master Ordinance, including the payment of obligations of the Governmental Unit hereunder, the Pledged Revenues may be utilized by the Governmental Unit as provided in the Master Ordinance for any other purposes permitted by law and the laws of the State.

Section 5.2 Payment Obligations of Governmental Unit. The Debt Service Account shall be established and held by the NMFA or its designee on behalf of the Governmental Unit. All Loan Agreement Payments received by the NMFA or its designee pursuant to this Loan Agreement, shall be accounted for and maintained by the NMFA or its designee in the Debt Service Account, which account shall be kept separate and apart from all other accounts of the NMFA. The amounts on deposit in the Debt Service Account shall be expended and used by the NMFA only in the manner and order of priority specified herein.

(a) In accordance the payments required under Article XVII of the Master Ordinance, as a subordinate charge and lien, but not an exclusive subordinate charge and lien, on the Pledged Revenues (on a parity with the lien on the Pledged Revenues created by any outstanding Subordinate Parity Obligations and subordinate to any outstanding Senior Obligations), the Governmental Unit shall remit to the NMFA and the NMFA shall collect and deposit into the Debt Service Account from the Governmental Unit the Pledged Revenues, in the manner specified herein.

(i) Payment of Interest Component and Administrative Fee Component during Interim Period.

(A) During the Interim Period, the Interest Component and Administrative Fees shall accrue on the amount of Aggregate Repayable Disbursements, from the date of each Disbursement.

(B) During the Interim Period, within five (5) days after each payment of an Approved Requisition, the Finance Authority shall calculate the Interest Component and Administrative Fee Component next coming due on the Aggregate Repayable Disbursements.

(C) During the Interim Period, the Governmental Unit shall on June 1 and December 1 of each year, commencing on the first day of June or December, as the case may be, next following the first payment by the Finance Authority of an Approved Requisition, pay to the Finance Authority for deposit into the Debt Service Account such amount as is necessary, to pay the Interest Component and Administrative Fee Component on the Aggregate Repayable Disbursements as of each Loan Agreement Payment Date as described in the Loan Agreement Payment schedule attached as Exhibit "B" hereto.

(ii) Loan Agreement Payments Following the Interim Period. After the Interim Period, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the following amounts:

(A) Interest Component and Administrative Fee Component. On June 1 and December 1 of each year commencing on the first day of June or December, as the case may be, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the amount which is necessary to pay the first maturing Interest Component and Administrative Fee Component coming due on this Loan Agreement and thereafter, on each Loan Agreement Payment Date, the amount necessary to pay the Interest Component and Administrative Fee Component then due on this Loan Agreement as described in the Final Loan Agreement Payment Schedule.

(B) Principal Payments. On June 1 of each year, commencing on the first day of June next following the Final Disbursement, the Governmental Unit shall pay to the NMFA for deposit into the Debt Service Account the amount which is necessary to pay the first maturing Principal Component; and annually on the first day of June thereafter, the amount which is necessary to pay the Principal Component then due on this Loan Agreement during the Loan Agreement Term, as described in the Final Loan Agreement Payment Schedule.

(iii) Method of Payment. The Governmental Unit shall transfer to the NMFA, from Pledged Revenues, the amounts set forth in Subsections (i)(C), (ii)(A) and (ii)(B) of this Section 5.2(a) during the time that this Loan Agreement is outstanding, provided, that in the event of any default in making the Loan Agreement Payments by the Governmental Unit, the NMFA shall be entitled to seek payment of the amounts due through any of the remedies provided in Article X of this Loan Agreement.

(b) In the event that the balance of payments held in the Debt Service Account should exceed the amount needed to cover Loan Agreement Payments then due, the NMFA shall use the balance of the Pledged Revenues received, at the request of the Governmental Unit (i) to

credit against upcoming Loan Agreement Payments, or (ii) to distribute to the Governmental Unit for any other purpose permitted by law.

Section 5.3 Manner of Payment. All payments of the Governmental Unit hereunder shall be paid in lawful money of the United States of America to the NMFA or its designee at the address designated in Section 11.1 of this Loan Agreement. The obligation of the Governmental Unit to make payments hereunder, from and to the extent of the available Pledged Revenues, shall be absolute and unconditional in all events, except as expressly provided hereunder, and payment hereunder shall not be abated through accident or unforeseen circumstances. Notwithstanding any dispute between the Governmental Unit, the NMFA or its designee, any vendor or any other person, the Governmental Unit shall make all deposits hereunder, from and to the extent of the available Pledged Revenues, when due and shall not withhold any deposit hereunder pending final resolution of such dispute, nor shall the Governmental Unit assert any right of set-off or counterclaim against its obligation to make such deposits required hereunder.

Section 5.4. Additional Subordinate Parity and Senior Obligations Payable from Pledged Revenues.

(a) Subordinate Parity Obligations. No provision of this Loan Agreement shall be construed in such a manner as to prevent the issuance by the Governmental Unit of additional Subordinate Parity Obligations payable from Pledged Revenues, nor to prevent the issuance of bonds or other obligations refunding all or a part of this Loan Agreement; provided, however, that before any such additional Subordinate Parity Obligations are actually issued (excluding refunding bonds or refunding obligations which refund Subordinate Parity Obligations or Senior Obligations but including parity refunding bonds and obligations which refund Super Subordinate Obligations as provided in Section 5.5 hereof) and the requirements of Section 24.03 of the Master Ordinance.

The tests required in this Section and Section 24.03 of the Master Ordinance, shall be performed without adjustment for payments to or withdrawals from the Rate Stabilization Fund or interest accrued (other than amounts representing capitalized interest) in the Acquisition Fund. For Subordinate Parity Bonds with a funded Reserve Account (excluding any insurance coverage through a Reserve Fund Insurer), determination of average annual combined Debt Service Requirements or maximum combined annual Debt Service Requirements shall include application of the funds in the Reserve Account to the final debt service payment for the applicable Subordinate Parity Bonds. Except as permitted herein and by Article XXV of the Master Ordinance, prior to the issuance of additional Subordinate Parity Bonds, the Governmental Unit shall be current in making all deposits required by Article XVIII of the Master Ordinance and the following test shall be satisfied:

(i) a certificate prepared by an Authorized Officer of the Governmental unit showing that the Net Revenues for the Historic Test Period were at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations after the issuance of the proposed Parity Subordinate Obligations, or

(ii) a certificate prepared by a Consulting Engineer showing that:

(A) the Net Revenues for the Historic Test Period were at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations immediately preceding the issuance of the proposed additional Subordinated Bonds;

(B) for each Fiscal Year during the period from the date of delivery of such certificate until the latest estimated Completion Date of the Project being financed, the Consulting Engineer estimates that the Governmental Unit will be in compliance with the Rate Covenant; and

(C) the estimated Net Revenues for each of the three Fiscal Years immediately following the latest estimated Completion Date for the specified Project to be financed with proceeds of the proposed additional Parity Subordinate Obligations, as certified to the Consulting Engineer by an Authorized Officer of the Governmental Unit, will be at least equal to 120% of the maximum combined annual Debt Service Requirements for all Outstanding Senior Obligations and Outstanding Parity Subordinate Obligations which will be outstanding immediately after the issuance of the proposed additional Subordinated Bonds.

For purposes of subsections (ii)(A) and (ii)(B) above, in estimating Net Revenues, the Consulting Engineer may take into account (1) reasonable Gross Revenues from specified Projects expected to become available, (2) any increase in fees, rates, charges, rentals or other sources of Gross Revenues which have been approved by the Governmental Unit and will be in effect during the period for which the estimates are provided, and (3) any other increases in Gross Revenues for such period which the Consulting Engineer certifies to be reasonable for purposes of such certificate. With respect to Operation and Maintenance Expenses, the Consulting Engineer shall use such assumptions as the Consulting Engineer believes to be reasonable, and taking into account, (i) historical Operation and Maintenance Expenses, (ii) Operation and Maintenance Expenses associated with the specified Projects and (iii) such other factors, including inflation and changing operations or policies of the Governmental Unit, as the Consulting Engineer believes to be appropriate. The Consulting Engineer shall include in the certificate or in a separate accompanying report a description of the assumptions used and the calculations made in determining the estimated Net Revenues and shall also set forth the calculations of the maximum combined annual Debt Service Requirements, which calculations may be based upon information provided by another Consulting Engineer or Consultant.

For purposes of preparing the certificate or certificates described above, the Consulting Engineer or Consulting Engineers may rely upon financial statements prepared by the Governmental Unit which have not been subject to audit by an independent certified public accountant if audited financial statements for the Fiscal Year or period are not available; provided, however, that an Authorized Officer of the Governmental Unit shall certify as to their accuracy and that such financial statements were prepared substantially in accordance with generally accepted accounting principles, subject to year-end adjustments.

(D) The Governmental Unit shall provide written notice to the NMFA of its intention to authorize the issuance of additional Subordinate Parity Obligations or Super Subordinate Obligations prior to taking official action regarding the issuance of the bonds or obligations and, following establishment of the final terms of the additional bonds proposed to be issued

(b) Senior Obligations. The Governmental Unit may issue bonds or other obligations payable from the Pledged Revenues having a lien thereon prior or superior to this Loan Agreement, so long as the additional bonds test set forth in the Master Ordinance for issuance of Senior Obligations can be met on the date of issuance of such additional bonds or other obligations. The Governmental Unit shall not issue Senior Obligations payable from the Pledged Revenues, without providing prior written notice to the NMFA, unless such Senior Obligations are purchased by the NMFA

Section 5.5 Refunding Obligations Payable from Pledged Revenues. The provisions of Section 5.4 hereof are subject to the following exceptions:

(a) If at any time after the Closing Date, while this Loan Agreement, or any part thereof, is outstanding, the Governmental Unit shall find it desirable to refund any outstanding bonds or other outstanding obligations payable from the Pledged Revenues, this Loan Agreement, such bonds or other obligations, or any part thereof, may be refunded (but the holders of this Loan Agreement or bonds to be refunded may not be compelled to surrender this Loan Agreement or their bonds, unless this Loan Agreement, the bonds or other obligations, at the time of their required surrender for payment, shall then mature, or shall then be callable for prior redemption at the Governmental Unit's option), regardless of whether the priority of the lien for the payment of the refunding obligations on the Pledged Revenues is changed, except as provided in subparagraph (f) of Section 5.4 hereof and in subparagraphs (b) and (c) of this Section.

(b) No refunding bonds or other refunding obligations payable from the Pledged Revenues shall be issued on a parity with this Loan Agreement unless:

(i) The outstanding obligations so refunded have a lien on the Pledged Revenues on a parity with the lien thereon of this Loan Agreement and the refunding bonds or other refunding obligations do not increase any aggregate annual principal and interest obligations evidenced by such refunded obligations; or

(ii) The refunding bonds or other refunding obligations are issued in compliance with subparagraphs (a) and (b) of Section 5.4 hereof.

(c) The refunding bonds or other obligations so issued shall enjoy complete equality of lien on the Pledged Revenues with the portion of this Loan Agreement or any bonds or other obligations of the same issue which is not refunded, if any; and the holder or holders of such refunding bonds or such other refunding obligations shall be subrogated to all of the rights and privileges enjoyed by the holder or holders of this Loan Agreement or the bonds or other obligations of this same issue refunded thereby. If only a part of this Loan Agreement or the outstanding bonds and any other outstanding obligations of any issue or issues payable from the

Pledged Revenues is refunded, then such obligations may not be refunded without the consent of the holder or holders of the unrefunded portion of such obligations, unless:

(i) The refunding bonds or other refunding obligations do not increase any aggregate annual principal and interest obligations evidenced by such last maturity date of such unrefunded obligations; or

(ii) The refunding bonds or other refunding obligations are issued in compliance with subparagraphs (a) and (b) of Section 5.4 hereof; or

(iii) The lien on the Pledged Revenues for the payment of the refunding obligations is subordinate to each such lien for the payment of any obligations not refunded.

(d) Any refunding bonds or other refunding obligations payable from the Pledged Revenues shall be issued with such details as the Governmental Unit may provide by ordinance or resolution, but without any impairment of any contractual obligations imposed upon the Governmental Unit by any proceedings authorizing the issuance of any unrefunded portion of such outstanding obligations of any one or more issues (including, but not necessarily limited to, this Loan Agreement).

Section 5.6 Investment of Governmental Unit Funds. Money on deposit in the Debt Service Account created hereunder may be invested by the NMFA or its designee in Permitted Investments at the written direction of the Governmental Unit or, in the absence of such written direction of the Governmental Unit, at the discretion of the NMFA. Any earnings on Permitted Investments shall be held and administered in the Debt Service Account and utilized in the same manner as the other moneys on deposit therein for the benefit of the Governmental Unit.

Section 5.7 Governmental Unit May Budget for Payments. The Governmental Unit may, in its sole discretion, but without obligation and subject to the Constitution of the State, governing laws, and its budgetary requirements, make available properly budgeted and legally available funds to defray any insufficiency of Pledged Revenues to pay Loan Agreement Payments; provided, however, the Governmental Unit has not covenanted and cannot covenant to make such funds available and has not pledged any of such funds for such purpose.

The Governmental Unit agrees to acquire and complete the Project through the application of moneys to be disbursed by the NMFA pursuant to Section 6.2 of this Loan Agreement.

Notwithstanding the foregoing, such certificate shall state that it is given without prejudice to any rights against third parties which exist at the date of such certificate or which may subsequently come into being.

Section 6.4 Unrequisitioned Amounts. In the event that, (1) at the time of the delivery of the certificate of completion required by Section 6.3 hereof, there remains an Unrequisitioned Principal Amount, or (2) the NMFA shall not have received a Final Requisition, by the date that is twenty seven (27) months from the Closing Date, unless an extension is approved pursuant to Section 4.1(b) of this Loan Agreement, then the Governmental Unit shall have no right or title to the Unrequisitioned Principal Amount, nor any right to pledge, encumber or draw upon such Unrequisitioned Principal Amount, and the NMFA will not approve, honor, or enforce any requisition upon such Unrequisitioned Principal Amount pursuant to this Loan Agreement.

(u). The Governmental Unit, as well as any contractors and subcontractors working with the Governmental Unit in this Project, shall comply with all State laws and regulations pertaining to equal employment opportunity and all federal anti-discrimination law requirements, pursuant to 40 C.F.R. 35.3575(a)(c), including Title VI of the Civil Rights Act of 1964, 42 U.S.C. § 2000d, et seq., 40 C.F.R. Part 5, EPA’s regulations 40 CFR §7.30 and 40 CFR §7.35, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C. § 794, et seq., and the Age Discrimination Act of 1975, 42 U.S.C. §6102 which laws prohibit discrimination in the provision of services or benefits on the basis of race, color, national origin, sex, disability or age in programs or activities receiving federal assistance. However, the Governmental Unit shall not be required to take any action in accordance with the foregoing provisions that would, in the exercise of the Governmental Unit’s good-faith and reasonable discretion, require the Governmental Unit to violate Executive Orders of the President of the United States of America or the Governor of New Mexico that are in effect and binding on the Governmental Unit throughout the Project period, nor shall the Governmental Unit be required to take any action contrary to an order or decision of a court having jurisdiction over any Executive Order of the President of the United States of America or any Executive Order of the Governor of the State.

The NMFA or its designee shall have the right to review all contracts, work orders and other documentation related to the Project that it deems necessary to assure compliance with applicable laws, rules and regulations, and may conduct such review as it deems appropriate prior to disbursing funds for payment of an Approved Requisition.

Section 7.5 Subordinate Lien Status. The Loan Agreement Payments constitute an irrevocable subordinate lien (but not necessarily an exclusive subordinate lien) upon the Pledged Revenues. The Governmental Unit covenants that the Loan Agreement Payments and any Subordinate Parity Obligations herein authorized to be issued and from time to time outstanding shall be equitably and ratably secured by a subordinate lien on the Pledged Revenues and shall not be entitled to any priority one over the other in the application of the Pledged Revenues regardless of the time or times of the issuance of such obligations, it being the intention of the Governmental Unit that there shall be no priority between the Loan Agreement Payments and any such Subordinate Parity Obligations regardless of the fact that they may be actually issued and delivered at different times.

Section 7.6 Expeditious Completion. The Governmental Unit shall complete the Project with all practical dispatch.

ARTICLE VIII

PREPAYMENT OF LOAN AGREEMENT PAYMENTS

The Governmental Unit is hereby granted the option to prepay the Principal Component of this Loan Agreement in whole or in part on any day without penalty or prepayment premium, beginning one (1) year after the Closing Date. The Governmental Unit may designate the due date or due dates of the Principal Component or portions thereof being prepaid in the event of a partial prepayment. Any such prepayment shall include accrued interest to the redemption date of the corresponding Bonds to be redeemed, if any, and notice of intent to make such prepayment shall be provided to the NMFA or its designee by the Governmental Unit no less than forty-five (45) days prior to the prepayment date. The NMFA or its designee shall recalculate the Loan Agreement Payments due under this Loan Agreement in the event of a partial prepayment in a manner which is consistent with the manner in which the Bonds, if any, are prepaid.

ARTICLE IX

INDEMNIFICATION

From and to the extent of the Pledged Revenues and to the extent permitted by law, the Governmental Unit shall and hereby agrees to indemnify and save the NMFA and its designee, if any, harmless against and from all claims, by or on behalf of any person, firm, corporation or other legal entity arising from the acquisition or operation of the Project during the Loan Agreement Term, from: (i) any act of negligence of the Governmental Unit or breach of any covenant or warranty by the Governmental Unit hereunder; and (ii) the incurrence of any cost or expense in connection with the acquisition or operation of the Project in excess of the Loan Agreement proceeds and interest on the investment of the Loan Agreement proceeds. The Governmental Unit shall indemnify and save the NMFA and its designee, if any, harmless, from and to the extent of the available Pledged Revenues and to the extent permitted by law, from any such claim arising as aforesaid from (i) or (ii) above, or in connection with any action or proceeding brought thereon and, upon notice from the NMFA or its designee, shall defend the NMFA or its designee, if any, in any such action or proceeding.

ARTICLE X

EVENTS OF DEFAULT AND REMEDIES

Section 10.1 Events of Default Defined. In addition to the default provision in Article XXIX of the Master Ordinance, any one of the following shall be an Event of Default under this Loan Agreement:

(a) Failure by the Governmental Unit to pay any amount required to be paid under this Loan Agreement on the date on which it is due and payable; or

(b) Failure by the Governmental Unit to observe and perform any covenant, condition or agreement on its part to be observed or performed under this Loan Agreement, other than as referred to in paragraph (a), for a period of thirty (30) days after written notice, specifying such failure and requesting that it be remedied, is given to the Governmental Unit by the NMFA or its designee, if any, unless the NMFA or its designee, as applicable, shall agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated in the notice

can be wholly cured within a period of time not materially detrimental to the rights of the NMFA or its designee but cannot be cured within the applicable thirty (30) day period, the NMFA or its designee will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by the Governmental Unit within the applicable period and diligently pursued until the failure is corrected; and provided, further, that if by reason of force majeure the Governmental Unit is unable to carry out the agreements on its part herein contained, the Governmental Unit shall not be deemed in default under this paragraph (b) during the continuance of such inability (but force majeure shall not excuse any other Event of Default); or

(c) Any warranty, representation or other statement by or on behalf of the Governmental Unit contained in this Loan Agreement or in any instrument furnished in compliance with or in reference to this Loan Agreement is false or misleading in any material respect; or

(d) A petition is filed against the Governmental Unit under any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, and is not dismissed within thirty (30) days after such filing, but the NMFA shall have the right to intervene in the proceedings to protect the NMFA's interests; or

(e) The Governmental Unit files a petition in voluntary bankruptcy or seeking relief under any provision of any bankruptcy, moratorium, reorganization, arrangement, insolvency, readjustment of debt, dissolution or liquidation law of any jurisdiction, whether now or hereafter in effect, or consents to the filing of any petition against it under any such law; or,

(f) The Governmental Unit admits insolvency or bankruptcy or its inability to pay its debts as they become due or is generally not paying its debts as such debts become due, or becomes insolvent or bankrupt or makes an assignment for the benefit of creditors, or a custodian (including, without limitation, a receiver, liquidator or trustee) of the Governmental Unit for any of its property is appointed by court order or takes possession thereof and such order remains in effect or such possession continues for more than thirty (30) days, but the NMFA shall have the right to intervene in the proceedings to protect its interests.

Section 10.2 Remedies on Default. Whenever any Event of Default has occurred and is continuing and subject to Section 10.3 hereof, the NMFA may take any or all of the following actions as may appear necessary or desirable to collect the payments then due and to become due or to enforce performance of any agreement of the Governmental Unit in this Loan Agreement:

(a) By mandamus or other action or proceeding or suit at law or in equity to enforce the rights of the NMFA under this Loan Agreement against the Governmental Unit, and compel the Governmental Unit to perform or carry out its duties under the law and the agreements and covenants required to be performed by it contained herein; or

(b) By suit in equity enjoin any acts or things which are unlawful or violate the rights of the NMFA; or

(c) Intervene in judicial proceedings that affect this Loan Agreement or the Pledged Revenues; or

(d) Cause the Governmental Unit to account as if it were the trustee of an express trust for all of the Pledged Revenues and Aggregate Disbursements; or,

(e) Take whatever other action at law or in equity may appear necessary or desirable to collect amounts then due and thereafter to become due under this Loan Agreement or enforce any other of its rights thereunder.

Section 10.3 Limitations on Remedies. A judgment requiring a payment of money entered against the Governmental Unit may reach only the available Pledged Revenues.

Section 10.4 No Remedy Exclusive. Subject to Section 10.3 of this Loan Agreement, no remedy herein conferred upon or reserved to the NMFA is intended to be exclusive, and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder as now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle the NMFA to exercise any remedy reserved in this Article X, it shall not be necessary to give any notice, other than such notice as may be required in this Article X.

Section 10.5 Waivers of Events of Default. The NMFA may in its discretion waive any Event of Default hereunder and the consequences of an Event of Default by written waiver; provided, however, that there shall not be waived (i) any Event of Default in the payment of principal of this Loan Agreement at the date when due as specified in this Loan Agreement, or (ii) any default in the payment when due of the interest on this Loan Agreement, unless prior to such waiver or rescission, all arrears of interest, with interest at the rate borne by this Loan Agreement on all arrears of payment of principal and all expenses of the NMFA, in connection with such Event of Default shall have been paid or provided for. Such waiver shall be effective only if made by written statement of waiver issued by the NMFA. In case of any such waiver or rescission, or in case any proceeding taken by the NMFA on account of any such Event of Default shall have been discontinued or abandoned or determined adversely, then and in every such case, the NMFA shall be restored to its former position and rights hereunder, respectively, but no such waiver or rescission shall extend to any subsequent or other Event of Default, or impair any right consequent thereon.

Section 10.6 No Additional Waiver Implied by One Waiver. In the event that any agreement contained herein should be breached by either party and thereafter waived by the other party, such waiver shall be in writing and limited to the particular breach so waived and shall not be deemed to waive any other breach hereunder.

Section 10.7 Agreement to Pay Attorneys' Fees and Expenses Related to Defaults. In the event that the Governmental Unit should default under any of the provisions hereof and the NMFA employs attorneys or incurs other expenses for the collection of payments hereunder, or the

enforcement of performance or observance of any obligation or agreement on the part of the Governmental Unit contained in this Loan Agreement, the Governmental Unit agrees that it shall on demand therefor pay to the NMFA the fees of such attorneys and such other expenses so incurred, to the extent that such attorneys' fees and expenses may be determined to be reasonable by a court of competent jurisdiction; provided, however, that the obligation of the Governmental Unit under this Section shall be limited to expenditures from and to the extent of the available Pledged Revenues.

ANDREA PHILLIPS (Feb 18, 2026 09:34:08 MST)**Summary:**

The proposed bill would authorize the execution and delivery of a Drinking Water State Revolving Fund loan and subsidy agreement in the total amount of \$17,000,000 between the New Mexico Finance Authority and the City of Santa Fe ("City"). The loan would be for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Canyon Road Water Treatment Plant. This bill specifies that the loan be utilized solely for the eligible project costs, pursuant to NMSA 1978, Section 72-4A-7(C). With respect to the loan debt, the bill pledges that the City would repay the loan amount and an administrative fee solely from the net revenues of the water utility system of the City. The Loan shall be in the maximum principal amount of \$17,000,000 with a maximum forgiven principal amount of \$8,500,000 and a maximum repayable principal amount of \$8,500,000.

Departments Affected:Public Utilities Department**Consequences of Not Enacting Legislation:**

If this legislation is not adopted, the City will not receive a loan of \$17,000,000 with a maximum forgiven principal amount of \$8,500,000 and a maximum repayable principal amount of \$8,500,000.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:None.**Performance and Administrative Implications:**

If this bill is adopted, the City would be able to better fund this critical infrastructure project. The principal loan forgiveness of fifty percent would save the City of Santa Fe Water Division up to \$8,500,000. Additionally, the completion of the project would allow the City to be able to better provide potable drinking water to residents by replacing aging equipment and increasing the treatment plant efficiency.

Fiscal Implications:

If this bill is adopted, the City will accept funds from NMFA in the total amount of \$17,000,000 for the purpose of financing the costs of constructing a new flocculation and sedimentation process and making improvements to the Cayon Road Water Treatment Plant. This loan has a maximum forgiven principal amount of \$8,500,000 and a maximum repayable principal amount of \$8,500,000. The loan portion of this agreement is to be paid back within 30 years at an interest rate of 0.25%.

The scrivener's note would then be included in the packet as an action item at a regular governing body meeting.

Departments Affected:City Attorney's Office and Office of City Clerk**Consequences of Not Enacting Legislation:**

If this legislation is not adopted, a new Section 2-2.10 of SFCC 1987 will not be created to authorize the City Attorney and City Clerk to correct scrivener's errors. This could result in a lack of process and clarity for when the City would require a bill to make minor corrections and when a simpler process can be used to address such errors.

Conflict, Duplication, Companionship, or Relationship to Other Legislation:None at this time.**Performance and Administrative Implications:**

This bill would require the City Clerk and City Attorney's office to create "scrivener's notes" to correct items such as misspellings, grammatical errors, numbering errors, or cross referencing errors. The scrivener's note would be included in the packet as an action item and approved by the Governing Body at a regular Governing Body meeting.

Fiscal Implications:

None at this time.
